I was wondering how you poached crab. Is it cooking them, or taking them illegally? Of course, Shark is closer to the good crab than most of us. King, Snow, and Dungeoness...IMHO in that order.

You might have a better chance of catching me on the air over the long
holiday weekend, cuz I'm done working until Weds (wipes brow)..except for
the honey-do list I'm working on in the yard just to get her off my back.

6. Why The Tard's Mother Left Home

Marky's house used to be a happy home. This is the tard's mom favorite site:

http://comebangmymom.com/

But his Mommy got pissed,I mean REALLY pissed. She caught marky sucking his bed ridden pappy's cock and fucking his old crusty ass. She tried to join in the family fun, but they didn't want her. They only wanted cock. So, mommy dearest left home and ran into the arms of her negro pimp. The boy couldn't turn a profit on her nasty old pussy, but she does bring in a few bucks blowing crack heads. The negro had her remaining rotten teeth pulled.

It seems to be coming back a bit lately, but sometimes it's downright dead
except for local or ground wave. Too many assholes screaming cqdx 5 times
in a row now, compared to days gone by when the dx is running.. Oh well,
it's still a fun hobby to me. CB will be the last one to die.

This just in....CBer's rarely if ever do anything illegal so it must be
about cooking them, like you said. I like most seafood except sushi. I like
freshwater fish best, especially walleye and yellow perch.

Ever had fresh flounder, headed, gutted of course, scaled, scored diagonally across it, drizzled with real butter, lemon, garlic, then broiled at high heat? Talk about badass!

Of course, living so far south, we don't have walleye, but we do have perch and blugill/bream. I hear walleye is great too. Gotta go to the north end of the state tho.

I guess by "trut" you must mean truth.
The truth is as simple as you are.
You are a sick dick sucking freak.

The jury is still out. It's mobile, and conditions have been non-stop here
for the time I've had it. Seems to be ok, and the 100 watts is a plus, but I
have yet to do any weak signal work when things are quiet.

Are those dosy watts? (sorry)

At any rate that 100 would make a nice driver, eh?

You're making me hungry now man, stop that. I've had flounder and it was good too, no problems. I know you'd like lake erie walleye..it's like butter no matter which way you cook it, baked or fried. yum

They're not the most fun fish to catch though, they only fight for a short burst when they're first hooked, and then once more when they see the boat and the net. You can't pick them up like bass cuz you will need stitches in your fingers.

They are tastey though, you can catch 6 to 10 pounders regularly on erie. The sheeps head fight better by a long shot, but I don't eat them. (very often)

Same with flounder and spotted seatrout/speckled trout here. They both have
huge canine teeth.

I'll eat most any fish so long as it's cooked. I like freshwater best
catfish, bass, trout. Unless we are talking shellfish, I have yet to eat a
shellfish I didn't like.

Hello All:

Hope all you's folks have a great and Safe 4th of July weekend!!!!

I got a big BBQ to go to, its in the mountains at a higher altitude underneath very tall and old tree's, that give us all shade over looking the Mojave Desert. So you won't melt in the hot sun, great!

We got both kinds of music, Country and Rock n Roll! Big Bob is now out of prison, and will be the semi MC / speaker. We got all kinds of music on Left over Carburetor Parts modified Juke Box. This thing needs to be in the Smithsonian. Its a old Juke Box found in the dump and modified to play CD's. It has two each 60 watt Macintosh Tube Audio Power Amplifiers with Klipsch Horn Speakers, and sounds like Carnegie Hall. We will be listening to Barbecue Bob, Willy, Hank Williams, ZZ Top, Beach Boys, Stones, Kingston Trio, ELO, Oldies but Goodies, and Mojave Desert Don and Welfare Claire will be singing live until they get all liquiored up.

Its a Pot luck, so it ya show up empty handed you can sit in you car, and watch.

Door prize will be a Cobra 200 radio. Just show up with some sort of side dish or desert for a ticket.

We even got a few designated drivers. Remember when the designated driver could only have 8 drinks? Not no more!

Power House should be there with his ass kicking mobile, this this is great, it turns on and off sprinkler systems and open and closes garage door!

So I hope all will be having a great time this weekend. Keep in mind that a lot people have given their all for us to enjoy our freedom.

Jay in the Mojave

you need to learn to read

I have threatened no one murder

OTOH the only to silence you fred as well as wisemn etc would be to
murder you

if you truly think saying to only way to silence you is to murder is
threat do call your local FBI or other LE

be sure and give them your real name esp if you are talking to the feds

Were gonna do a big fire and BBQ then blow stuff up. I usually hide stuff
under and in the wood to keep people on their toes. Have a good one.

Mostly just a stiff suspension pick-up truck.. roll over a quarter and tell
you if it was heads or tails. I dunno, are those transistors ready for
that? I've had smaller ones in there like the palomar that's in there now.

I've never used a high drive portable amp, but I might want to try it. I
only use high drives in the house and they are among the best made imo.

Well at least it has some 'style' to it, but I'm not real crazy about it. I do like the Dodge Magnum. I drove a few of them as rental cars. The only draw back to them is the view out the rear window, it's really small. The Pacifica is nice too if you like cross over SUV's. I was rather pleased with the room inside. You can get in the thing wearing a baseball type cap and not have it smashed up against the roof liner, which is one of my pet peeves with too many new cars, the lack of head room.

Most new vehicles look like they got stamped out of the same mold, no imagination on the part of the styling department. Guess that's one reason why GM is getting boo's in that area. Years gone by you could tell at a distance what make and model of car it was, now you almost have to wait till it drives by to read the name plate to be sure. I think part of the appeal of the 'retro look' is the higher level of distinctive styling they have.

Anyway I wonder if the new model will have the Hurst Pistol Grip shifter like the original? That was a nice shifter to use. I don't much care for the Tee-Handle type or the Slap-Stick with the ball and button on the top either. You really need a good grip to shift the manual transmission in the winter on the original model. The grease was so thick you almost had to use two hands till the transmission warmed up. I use to let the thing idle in neutral for 5 minutes to let the grease churn up a bit before trying to drive it.

> (fix your sig delimiter it's snipping most of your post over here)

I use two or three different computers on my home network. I'll have to see which one is causing the problem. When I check my posts by reading them on the news server they have looked OK to me however.

I think it's pretty sad that he has to use a free news service when he has
such a lucrative business selling amps. I'm thinking of buying one to hold
my door open.

You've never seen me and I'm not mad. You are a fag however, and belong in
another group as you obviously know nothing about radio.
I'll go as far as to say you had to have the dealership program the stations
on your AM cassette radio in your Pinto.

Since you are going to feed it unswitched power, you can bridge the positive and empty center pin together and use the 2 conductor plug. My guess is you will have a hard time finding one with 3 leads. I still like the idea of coming off the power switch so you can turn the lights out when you turn the unit off.

He can deliver a pizza and blowjob in less than 30 minutes or it's free.
From his pic it appears that he enjoys his work.

I tried to call his number but I get a recording that says he is not receiving incoming calls. He must have sold out all the used boys underwear. I'm glad to finaly know who this aoie.org fuck is, now I can do some Goggle searching on his stupid ass. What's great is that every couple of years we pass through Alabama on our way to Florida. Think my next trip I might stop by and say hi, maybe get a few pics if he isn't camera shy.

I'm pretty sure they're offering the same levels they did in the Magnum,
V8-wise. The aarticle suggests there will be no V6. I suspect the 4.7, 5.7
(Hemi), and then the big Hemi in the SRT8. A great engine, yeah, but they'd
better serve it some serious wheaties if they want to keep up with the
Cobra, and, they have to keep the price around 40k, too rich for my blood
anyway. ;-)

I would loose the dimming ability, I was going to feed the gauge backlighting then probably switch it off and on via a small relay controlled by the CB power switch. When out on my parents farm in WV I do need to dim all my lights a bit since there are not street lights or other ambient light.

They look like 40K in todays vehicles. I like the lines and the 70's look
on it, but I won't be buying one anytime soon either. Or a cobra for that
matter.

Indeed you will. You won't have any choice, because it is 99% certain
that your account will be terminated. Just as soon as an ISP receives
any letters of that type, it decides you aren't worth the liability
it may incur, and you get dumped.

> but you still fail to adress the fact yo were caught in a lie

It was kind of nice that you fell for that and replied with your bogus
morgan.com domain to prove you had access and that the poster was
yourself. Now there's no way you can squirm out of any enforcement
activities which may follow.

I'd say that you just demonstrated your own profound stupidity.

231. Mr. Wonderful and E Street Preacher on CH. 38 L.S.B.

So how many of you have heard "Mr. Wonderful" or "E Street Preacher" coming in skip on channel 38 L.S.B. during this summer's Sporadic E Skip season in North America?

I propose we start calling Mr. Wonderful "Mr. Pitiful" instead. Unless of course someone can come up with something more imaginative to call him.

For those that have not heard them, Mr Wonderful just likes arguing with anyone he hears coming in skip. Like most stupid men his only source of inspiration is his penis, so all his insults are the usual channel 19 homosexual / sex related based insults. He only knows about three or four of those low IQ insults and then he starts repeating himself. He may be in Ohio, but I'm not sure.

Triple 7 - E Street Preacher is a religious fruitcake that preaches Bible verses mixed with his hatred for anyone who is not a white caucasian Arkansas redneck and shares his warped view of Christianity. In particular he hates Catholics, Jews, Germans, and Japanese.

Thoughts on how to have fun with these morons?

Except on AM. The ham radios are better on sideband, but I have not
seen a ham radio yet that has an AM receiver as good as some of the
better CB's with the exception of selectivity.

Most ham radios only manage a selectivity rating of 1 uv or worse at
10db S/N on AM. Most CB's are 0.5 uv at 10 db S/N on AM. The Kenwood
TS-940 only manages a miserable 2 uv at 10 db S/N on AM.

I personally one the following ham radios;

1) Drake TR-7
2) Drake 4 B line twins
3) Kenwood TS-450sat
4) Kenwood TS-850sat
5) Tempo 2020
6) Radio Shack HTX-10

and I use to own...

1) Yaesu FT-757GX
2) Yaesu FT-101e

The Drake R-4B and the Yaesu FT-101e had the best AM receivers, but
their noise blankers were not very good.

On AM a Realistic TRC-451, Cobra 148 GTL re-issue, or Cobra 2000 will
out perform the above ham radios as far as sensitivity and noise
blanking. On sideband the Kenwood TS-450sat, tthe Kenwood TS-850sat,
and the Tempo 2020 will blow away a CB radio. The Drake TR-7 is very
selective, but even my Realistic TRC-451 is more sensitive on sideband
than the Drake TR-7.

By all means replace it and forever leave CB behind. While you're

Seems to me this original question appeared here about 4 months ago or so!
Is it my news reader replaying OR is someone else "reposting"?

It's the same story over and over. Usually an outcasted ham posts
to rec.radio.cb in this derogitory manner. It's a amateurish attempt
to self justify their superiorirty. They simple put down others in
order to bring themself up.

The only problem is this. If they were truly superior they would never
feel the need to do this. When they resort to putting CB down it does
just the opposite of what they think. It exposes an inferior feeling
and their self conscienceness to it.

Maybe it is me, I must be missing "something". I started out with CB - got
into Ham AND Electronics due to my admiration of the latter. Both services
have their place. Each "does" have it's share of lunatics. There "used" to
be a channel here where EVERY NIGHT - about 4 or 5 would do NOTHING but
fight. That makes no sense to me. They threatened to fire bomb each other,
kill each other, kick each other's ass, etc. It was plain ridiculous. A
waste of money on Radio equipment, electricity, etc. I've heard some hams
get on air and do just as goofy of things. Me, I prefer to get on whatever
band, have a nice conversation and call it a day. Just like any group, be it
groups of humanity, cops, "professional driver", doctors, lawyers, etc.....
we ALL have our bad apples. That will never cease.
Why not try to "enjoy" life with out the provocation relating to radio -
etc. Just because I have an Extra class license - does NOT make me any
better than many CBers. There are many who know electronics and just chose
```

to never go get a license. Same with 2 way radio techs, they chose not to get involved. No big deal.
Why cut each other up? JUST ENJOY THE HOBBY..... Cutting each other up, fighing, etc - is NOT "enjoyment".

Screw all the a$$hole answers. Here is the real lowdown:
You will find jerks on Part 95 and Part 97 bands.
You will find fine folks on Part 95 and Part 97 bands.

Three years ago I got my ticket. I found more bands to work plus
my CB. When I can't find someone on 2 meters, I can check out 440.
If that proves to be dead, I can always find someone on channel 19!

Get a scanner and tune from 144 to 148 and from 438 to 450. You may
hear a lot of the same voices on there that you hear on your CB!

Finally, repeaters are great for a consistent long range connection,
however most 2 meter action occurs on simplex, just like CB. Many
times, it sounds like CB. I find most of the extra cl ass hams are
the ones with the attitudes. The rest are OK.

Don't give up your CB. Just add more radios!

I swear by my Taiwan built 148s. I've had one of them for some 17 years or so, the other that I acquired recently I built for my brother at about the same time. I now have a complete parts unit also. I have talked all over the world on the 148.

I've been thinking about 2 meters, but I just don't see me leaving 11
meters. I can go freebanding on SSB and still listen to the locals chew the
fat or fight when they're drunk. Channel 19 offers up some crude
entertainment from time to time. I also use the scanner and get the scoop on
what kind of trouble the locals are getting into.

I think any inbred hick with a CB radio in his truck is too stupid to ever pass an amateur radio license examination. In fact, I'd even question how he obtained a driver's license -- if he has one.

Lardass eats the leftovers!

Bird droppings survive space launch Wed Jul 5, 5:29 PM ET

HOUSTON - NASA's rocket scientists have a new appreciation for the out-of-this-world power of bird droppings. The orbiting space shuttle Discovery sported some whitish splotches on its black right wing edge that NASA officials said appeared to be bird droppings.

Shuttle lead flight director Tony Ceccacci said he saw the same splotches on the identical part of the shuttle about three weeks ago when Discovery was on the launch pad and laughed when pictures beamed back from space Wednesday showed they were still there.

That means these bird droppings withstood regular Florida thunderstorms, a mighty Fourth of July launch during which 300,000 gallons of water is sprayed at the shuttle's main engines, and a burst upward through Earth's atmosphere. During that launch Discovery went from zero to 17,500 mph in just under 9 minutes.

And still the bird droppings remained in place. Mostly.

Some of the droppings may have shaken off during liftoff, Ceccacci guessed. He figures the rest will burn up during landing, when the shuttle's edges get as hot as 3,000 degrees Fahrenheit.

Rob Fergus, science coordinator for Audubon At Home, a division of the National Audubon Society, sometimes gets calls from people asking how to remove bird excrement from their cars.

"Usually they can hose it off," he said. "Apparently that doesn't work with the space shuttle. Maybe they need a bigger hose or Lloyd Davies."

Muwhahahahahahaha!!!!!!!!!

Hello all,
I need your help. I am suffering a very serious cash flow problem which has left me in a very bad situation where I am facing foreclosure and repossession of my car.
I am asking each of you who reads this message to make a donation to me of between $1 and $5 (or between 1 and 5 of your countries unit of currency) to assist me at this time. I am sure that none of you will miss such a small amount but if you all respond then I it will help me get back on track with my life which is certainly facing a serious crisis at the moment.
If you are in a position where you feel you can make a larger donation to help me out then please feel free to make whatever contribution you believe will assist me.
You can either send the money to me by mail (kb9rqz good at qrz.com) or deposit it in my Paypal
account.
The email address you will need to make a payment into my Paypal account is kb9rqz_ars@hotmail.com
I thank you all in advance for your help. If you are sending me your donation by mail please email me so I can watch out for your letter. If you make a deposit into my Paypal account Paypal will inform me and I will send you a thank you email and keep you informed of my circumstances.
Regards to you all,
Marky

well I have the dated and time stamped auto responses of paypal and the
FBI cyber crimes reporting so the chances that this scam of your can do
me any real harm is close to nil

you were report to your news host aeio.org, but I doubt they will do
anything indeed the only wild card is Pay pal having involved them in a
fraudulanet sheme this way may piss them off enough to push Law
Enforcement into looking into you presumed wisemen but certainly an
unwisemen

and likely to be more effective is making sure your bloging NOT friends
know what you have hatched, and I have aprasied your former targets
over in Nimbusters of your scheme

you manged to waste oh about 30 minutes of my time I hope you think
that was a worth while efforts

It's too bad some fat fucking pizza boy has to ruin a free service for
everyone that might want to post on topic.

Cross post the troll shite to alt.free.newsservers. I know for a fact that
the generous owner of that free server reads every post in that group.

Like I already said, hat's off to someone providing free posting priv, and
to hell with anyone using it for a troll port. (lloyd davies)

stop forging me stupid. i also know the name of the lid that was using my
call on 38 lsb today. i will use yours on the 462 band! hahaha!
oh, Wait,i think i forgot to mention
GTE touch tone desk set. These were manufactured by GTE. If you are looking
for a perfect telephone this is it. Line cord terminates in a standard,
modular RJ11 plug.

Wismen has p[romised to compose a letter that would cause me as much
trouble as he cuased with his fake kiddy porn ads targeting Davies

this would apear to be that letter

it is fraud

while I certainly could use some extra bucks (being semi retired the
engery prices are btiing into but nothing serious) the email adress is a
spamtrap although I will likely monitoring it for a while
thjis post is made in my name and I call the fruad that it is

Hello all,
I need your help. I am suffering a very serious cash flow problem
which has

left me in a very bad situation where I am facing foreclosure and
repossession of my car.
I am asking each of you who reads this message to make a donation to
me of
between $1 and $5 (or between 1 and 5 of your countries unit of
currency) to
assist me at this time. I am sure that none of you will miss such a
small
amount but if you all respond then I it will help me get back on track
with
my life which is certainly facing a serious crisis at the moment.
If you are in a position where you feel you can make a larger donation
to
help me out then please feel free to make whatever contribution you
believe
will assist me.
You can either send the money to me by mail (kb9rqz good at qrz.com)
or
deposit it in my Paypal
account.
The email address you will need to make a payment into my Paypal
account is
kb9rqz_...@hotmail.com
I thank you all in advance for your help. If you are sending me your
donation by mail please email me so I can watch out for your letter.
If you
make a deposit into my Paypal account Paypal will inform me and I will
send
you a thank you email and keep you informed of my circumstances.
Regards to you all,
Marky

Hook up an antenna and turn it on. If it works, you can hear retards
talking. If 11 meters is open, you can hear retards on every channel.

If you don't hear retards, the CB is broke.

Skip was wide open all last night. Mr. Pitiful was coming in with his
usual three or four remarks. He is repetitive as a parrot.

He must be awful lonely. He obviously hates everything he hears
coming over his CB, and yet he sits there hour after hour and day
after day listening to it. It makes me wonder if he is confined to a
wheel chair or has some other physical disability that makes him a
prisoner in his own home. He is obviously a very unhappy person.
Perhaps I should just let him be.

I've got some used Kenwood TK2100 2 channel, 2 watt, VHF portables in good condition for sale. They come with a good used battery and drop in charger. Currently programmed for MURS frequencies (custom programming available).

Greater range then 1/2 watt FRS, especially outdoors. Nice loud audio, can be heard in noisy conditions.

Only $59.95 each plus shipping. Volume discounts available.

More details and photo available here:

http://mursradio.blogspot.com

*These radios are legal for use on the MURS frequencies!

Hello Doctor Death:

Yeah a little Spam of selling radio stuff ain't too bad.

The VHF Hand Held Radios really work great, as compared to the FRS UHF 1/2 watt crap that is sold everywhere.

I went Quail Hunting with a few guys, and we all dialed in 146.52 MHz the 2 meter national calling simplex frequency. Man that worked great. There where guys that tried the UHF FRS hand held radios and they didn't work as well as did the VHF Hand Held Radios.

We even had a local break in, and tell us where the good Quail Hunting was, and what to look for. We invited him over to our camp for a few social cocktails and dinner. A good time was had. The local couldn't believe we made contact at ten miles on extreme low power. Must had a straight shot!

Yeah even on Extreme Low Power the VHF Hand Held Radios worked way better than the FRS UHF Radios.

If you're referring to Mr. Davies, I don't think the post was by him.

He's on a well-earned sabbatical leave from Papa John's and has gone to spend a few months in the contemplative life at profit Stair's monastery.

He'll be contemplating false predictions and "young colored girls" under the tutelage of none other than the profit himself.

I think Mr. Davies has been selected from tens of thousands of candidates to succeed the aging profit and will now become the new "profit in training".

Look for Mr. Davies in the picture files at http://www.overcomerministry.org/ - he'll surely be included soon.

Maybe there'll be candids of him meditating "out behind the barn" with Sister Tameka and Sister Rasheeka and Sister LaWanda and Sister RaShanda.

Too bad Mr. Davies will be out of town during Huntsville hamfest.

But I'm sure he'd prefer to be making false predictions with the "young colored girls" over a delivering pizza to a bunch of geeky old ham operators any day.

Hello DrDeath:

Yeah the VHF hand held radios are way better call than those cheap shit communist FRS Toy type hand held radios.

Last hunting trip one of the guys set up a VHF Base Antenna on a 30 foot mast, and we talked all over the place, on simplex 146.52 Mhz.

We have more Quail then should be legal I think.

I go hunting up around and near Granite Mountains. Running out of home plate Barstow California, on highway 40, getting off at Kelbaker Road, and heading north about 10 miles, theres usually a few who get there early and can radio ya in, if their not all liquirored up!

Its pretty desolate out there, so if ya want to have something ya have to bring it.

Its good exercise and keeps ya on your toes. One of the guys shot a Quail, and a Hawk picked it up before anyone could gather any thoughts about it. Pretty impressive.

Jay in the Great Mojave Desert, ...just down the road ah ways from the fillin station.

It is interesting to point out that once again Eric Oyen is involved in

Eric is a well known pathetic trouble maker.

And we concur - a very wise quote from a very wise man. In fact we

remember correctly) Mr. Jimmy Dale, whom I do not know.

Welcome back, Y-Man - someone suggested that you were out having a

You still have Les Locklear left on NIM Busters, and he is at war with
you too. He has been spreading lies about you in rrcb and making the
"boys" think that you are forging all of the posts made through
aioe.org. In the meantime, Les shares the nym of "Tor" on NIM

I'll apologize for the multiple posting. It was not intentional. I used Google's News Group poster and my first post wasn't acknowledged. My posts were sent to newsgroups who might actually want to see my ad. CB and MURS are both Part 95 Personal Radio Services. ;)

Anyway, yes, these radios are much better than FRS. VHF does travel better than UHF through the woods. The 4x increase in power and the use of a better, more sensitive receiver in this commercial radio combine and you get better range.

If anyone is interested in a pair of these radios, I will discount for multiple purchases. Just send me an email directly.

A more things to know about the VHF Hand Held Radios:

Get a set of extra batteries, get the 12 volt charger cord, and ear piece / boom mic's. I didn't have the ear piece / Boom mic giznostic accessory do dad, so I had to take the radio out of my pocket to use it. Not good when hunting and trying to sneak up on illusive Birds that know when your coming.

When you complete the paper, I would very much like to have a copy to post
on novena.net. It would be used as guidance for recruiting new news group
moderators with precisely those characteristics.

Hi Jim, how's things going?

Yeah, he really is some sort of nutcase. He just doesn't get it, if he just stopped
replying to the other idiots, they would eventually fade away. I only see his posts
when someone responds to him, otherwise I wouldn't see anything posted by him.
I saw a reply to one of his posts where he threaten to murder someone, that post
alone if someone forwarded it to below would most likely get his account pulled.

Pay no attention to Markie-tard. If fact I'll give you a list to killfile
all of his up to date nyms that he uses.
I just pointed it out that you posted it twice, and as I generally killfile
those that make it a regular habit to advertise products. Keeping your web
address in your sig file while posting is more in keeping with Usenet
courtesy and still gives the readers the option of viewing your products
without having to spam. I hate having to killfile someone that otherwise may
have something useful to add to the group.
I'll probably be looking at some units in the near future, I have to get
this tower project finished first. I can't seem to locate anyone local that
sells pushup pole.

499. ant. mast

I need to get ant. mast, but can only find 5 foot sections. I wanted to go up 20 ft but it looks like I will have to stay with 1 - 10ft section of conduit. Will 1-3/4" emt be strong enough for an Anton without the G/P kit, or should I use rigid? I would like to get away from too much weight so I'm hoping emt is as strong as conventional mast at 1-3/4".

so you stack your fott setions f mask one on the other as they were
desgined to do that is if you are talking antena masts instead trying
to go cheap

Yup, points to Cecil for realizing this.

Based on similar turns of phrase in a private E-mail message sent to me recently (of the usual, unhinged, "I didn't ask to be welcomed to this newsgroup!" variety), I can say with great likelihood that the perpetrator of this forgery is the individual who posts on rec.radio.amateur.policy with the E-mail address "wussyroger@yahoo.com." I sent a complaint to alt.net and altopia.com in case they caught the poster in their logs.

It seems that we've really, really hit a raw nerve here among the unbalanced trolls who populate rec.radio.amateur.policy. They very much seem to fear the prospect that a new, moderated discussion newsgroup for amateur radio stands a good chance of getting created, one that will leave them behind.

I suspect that there will continue to be a storm of retaliatory forgeries for some time to come, at least through the fall. As I said previously, check the headers. If something appears to be from me, and is not from Novia/Newscene, then it's a forgery. Check also for misspellings, poor grammar, and obscene language.

I wish nothing bad on him or Fred or even Wisemen or Robeson. sadly
esp the later 2 are stuck so far out there that death tiself likely
become a mercy for them

can you imaginine how bad Wismen would feel if one day he woke up clear
headed and realized what an ass he had been, might just drive out of
his mind

who knows prehaps this has happened many times by now

but radio stuff having a decent time now on 6m psk31 a bit frustring
since the porg is not holding steady for me but here I am typing on ngs

Oh, it's a forgery alright, unless he doesn't know how to spell his own name. He spelled it correctly once, mispelled it twice, and none of the domains resolve. And the sender was not using his ISP, which is easy to find.

A little attention to details, checking of headers, plus google goes a long way folks.

Isn't he something in the cap? That doesn't mean much,really.
I would be worried if he was real armed forces.Those cap guys are more like
students at a clown college. I knew a guy who was into it with his mom. No
shit! Don't let the guy rattle your cage. Hey,is six open? I'm thinking
about getting the ranger six meter and a three element beam.Would you make
the investment of a six meter rig again?

I would in a heart but I am tech that in his teen failed more 150 code
tests so I am trying that again

I would recomend if buy a new hf right picking one that includes 6 sure
my rig is multimode multi band (the Yeaseu 847 for me so far a good
triband almosde with a SW receiver atached that is how I have used for
years)

a stand alone 6 m unit no I don't recomend it esp not at THIS point in
the cycle in a couple of years yea

They're not getting their money's worth if that's the best you can do
with headers. The post by "Mike" came from supernews.com, and that's
not where the forgery originated.

FB about the tech ticket. I wouldn't worry much about the code,it should be
gone soon. I been an advanced for years,but since it's gone now I'll never
upgrade. It's getting to be a novelty. I'd hate to have to study all that BS

it s the same mistake you make with my postings "lloyd" while you are
that if I just went around posting "get help" for no reason I would
likely lose my ISP access I don't do that and when you forward one of

Keep everybody posted on the EME. I've never tried it but wouldn't mind
learning a thing or two about it.

As far as your cw goes, to each their own. If you did want to try a contact
on some freq. I couldn't care less about part95 or 97,No up tight ham
here,so you could pick a freq of your choice(within reason,say between 4 mhz
& 9 mhz)

I wuld need both to achie the extra license but if the gneral expires
(the credit is good for a year no longer I will simply retest those 2
and the code would get extra today they wl get me the exta after the
R&O unless the FCC does something REALY kinky

as I understand it can and is modiefied to allow a braod range of
trnsmision if I wish to use it had it done recently to allow 60 m ops
(when the R&O comes through I know it will transmit ove r the rnage
from somehwere below 60m to past the top of 10 using control interface
and control I ave set so it could operate on CB in legal power limits
and channel which would be legal to do in emergency since I have CB
next to it I don't use it the way but that in the rnage I would say
fuck the rules if it came down to it

So you've been receiving complaints since 1999, yet have kept on
sending unsolicited email (UE) anyway.

What a stellar track record.

Your "logic" for continuing your UE ("My ISP lets me do it.") is very
similar to Mark Morgan's logic for continuing his ongoing flood of
rrap. Will you stop the UE once you have created your own moderated
group in which to play?

Somehow I doubt it.

One day I'm on the interstate... snowing real bad. Call out on the usual simplex channels on VHF/UHF to get a traffic/conditions report... no answer. So I grab the "emergency" CB radio I keep under the seat. Call out on Ch 19... got _many_ responses - mostly truckers all with solid info. Very useful - and enjoyed listening to them all help each other.

That day, ham radio lost and CB won.

If you're traveling a long distance and don't want to hear the usual CB chatter - 2 meters and so on is great. For Road reports - I agree - CB IS the answer - hands down. I'd never give mine up..... I installed one in my truck just for that reason. BOTH services have their advantages and disadvantages. I don't think anyone is saying Ham is the "gift from god" when it comes to radio. Even FRS has its place. It all depends on the need and so on.

He fought the outlaw keyclown cb radio operators.

He revealed the gayness of illegal keydowners.

He talked the truth about mopeydopey and the other sock puppets.

He never quit, never gave in, never backed down.

God bless you where ever you are, N8! Ham radio owes you a debt of gratitude!

Right, and how do you send CW while driving your pick-up truck with the
twin talkers -and- the on the air lights mounted on the roll bar? It's bad
enuff running around with the 102" whip banging off everything low, let
alone trying to tap out some directions to your ham buddy on the highway
via CW. :)

CW rules in disasters tho..

As best I recall CW is illegal on CB. Naturally, if the average CBer
knew that, there would be a rush to learn it. :-)

I've heard some fairly loud cw on 11 meters, that stuff sure punches
through the noise. There's plenty room for both cw and phone so the more
the merrier to me.

I would think that the mod at most truck stops would cost about $25.00 If
they are the shop that sold the radio, they should do the mod for free. If I
did the mod, I would only charge a couple beers or a pizza.

This whole thing was started by what's called a troll. It was forged, not from the person it purports to be from. Many of the "responses" are also forged, and from the same person or his cohorts.

It exists to piss people off, get them riled up, and so the forgers can sit back and laugh at what they have gotten those in the newsgroups, who they consider to be idiots, to post as responses.

11 meters is the last frontier. The sheriff never comes to these here parts,
so fire up yer amps and transmit any mode ya want.

it is legal at part 15 wattage but not at legal cb power let alone the
poser a ham staion can use it as

amsuingly I thought CW was legal on CB till Robeson disabused me of
that notion

it was interesting that he dt not realy seize upon that mmistake on my
part (a real one for a chnage as opposed tothe faults he merely
igmaines)

That may be extreme in an urban area tho, eh doc? <g>

Designate ch's 30 and 31 to high or low powered CW, in exchange for the
am'ers staying off 36-40. Deal. (it's only a gentleman's agreement anyway,
self policing of course)

He did grow up neurotic, because of his home life. His mommy sleeping until 4 P.M, climbing all over the poor bastards she brought home after barhopping, trying to break down the bathroom door when she heard Markie and his father taking a bath together when he was sixteen, the usual morgan perversions carried down for generations. Even the beer enemaas for that distended colon of Mark's that got assreamed so much.

Sounds like a fair deal to me. Gold or Silver or Black, does not matter. Most of the locals here have paid $300 to $399 for the transceiver that is converted, aligned and the power set up properly.

I don't convert rigs, just use them, like my truck, I just drive it, not work on it.

No offense, but only an idiot wouldn't have known that they would "spin
up" people on these news groups, or any others for that matter. Your
idea is possible, but I'd have to say not probable.

If what you say _is_ true, maybe he'll 'fess up. That would be interesting.

This was a new on-line ad placed in Philadelphia Inquirer and
Philadelphia Daily News on www.philly.com (see full text below)
It was about the secret aerosols rooms in US. One could find it by
searching "secret", say, in the ad section of philly.com.

Democracy can not function effectively without the informed public. As
a former NASA Langley scientist working in the area of nanotechnology
and nanoscale particles, I have been recently exposed to the
establishment of secret gas-aerosol rooms inside of United States, at
least in the Mid-Atlantic region (from Philadelphia to Virginia).

First, the highly irritant aerosols have surfaced at the NASA Langley
Research Center in several safety accidents. Investigations were
blocked, probably, because of lack of Congressional approval for such
financially-lucrative research at NASA. Later, these aerosols had been
encountered outside of NASA in Virginia, Delaware and Pennsylvania
.

This points out to yet another proliferation of originally-sensitive technologies into domestic American life to hurt and harass people without a proper oversight and much control. This amounts to torture, extra-judicial prosecution and authoritarian intimidation tactics. The use of such irritants and the operations of the secret gas-aerosol rooms are gross violations of human and constitutional rights of American citizens and various domestic and international laws.

------------------Full text of an ad from Philadelphia's philly.com--------------------------
TORTURE IN USA: Secret Aerosol Rooms

US Scientist needs legal help dealing with the secret aerosols rooms (SARs) operated illegally in Philadelphia area, Newark (DE), Hampton and Williamsburg (VA). Highly volatile aerosols with and without bacterial content cause dry cough, airways and eyes irritation, chest pain and inflammation. FBI and Homeland Security associates are likely operators of SARs, while collaborators may be hotel staff and landlords, who get financial/material or other incentives. US citizens and kids are victims.

America in danger -
The public trust is breached.

Big Brother spins protection...
And fear is used to clamp.
Democracy needs action!
On which side do you stand?

Which side are you on, boys?
Which side moves you on?
Which side are you on, girls?
Which side moves you on?
(Chorus after F. Reece)

Your church is burned by haters,
The priests to go to jail?
Your dreams are cheynned by traitors,
But hope still shines through veil.

"Dust rooms" came back to gas us
With neo-Naz (or Con) embrace...
New immigrants do make US!
And not the SSuper-race...

Mark has no power to stop K4yyz from conituing his campaign of hate and stalking indeed I beleive that k4yz can no longer what he has set lose

but I never postedabout steve families till posted about mine and other people family

I never threatened to uder another he has on numerous occasion

I am not a homsexuaul amussing that was posted as I was fucking my in our swiming pool just now an intersting experence

I have never posted of my sexaul activies (till now) in the radio NG except in direct response to others

I posted about sex in sex ngs that is what they are for radio NGs are for Radio but Robeson and Wismen and other think they are abotu bashing other peoples sex lives

I can't stop that (sort of murdering a number of people these days)

you don't like what the NGs have become, well neither do I

if you were serious about imporving the tone of the radio ngs your would have posted in only radio NG's but you are a troll given you may hav some success I thought Id address these issues today as I have not done so in while

You are a perfect example of the problem
Too many people in this country more loyal to Israel than the US.

Get your FAT ASS there and fight for Israel if you love Israel.

Before Israel, we had no enemies in the middle east.
Every country the jews enter, they end up getting their asses kicked
out.

Wrong as usual, Markie. You are the only one who claimed he has a

I might have to try a few of those.

Silver plated, Teflon PL-259 connectors are the way to go! Sure beats
the Nickle Plated ones, by a mile.

Really? I only have four fingers and a thumb on each hand. That would seem to imply that only three fingers would be pointing back. Your mileage may vary.

For those of you spanking him in this group, it is apparently working. He sent no less than a dozen letters to me yesterday and some Usenet posts; some of which are below. Additonally, he used an account (teranews) that has his credit card and therefore his true name and address. In his posts; he listed the name/address/phone of a person who is not me but who Mopey-Dopey the retard thinks is me. If any of you call this guy; you can explain what Steve Park is doing with this guy's information; and I am sure this guy would no doubt call the local police department or Georgia Bureau of Investigation; and they would go after Mopey Dopey with felony charges. As such; below are the posts from Steve Park the Mopetard.

Again; to people like Doug; whom Steve has stalked on your personal residence; I pretty much guarantee the odds are that the below person below would definitely go off the wall on this, and would definitely call the Georgial Bureau of Investigation. This is a guaranteed payback for everything Steve has ever done to you. Also, since Steve will deny having made the below post until the moment Teranews gives his name/address/phone to the GBI; you are more than welcome to copies of the 10 or so threatening emails he sent me yesterday saying he was going to do the below posts (which he did about a dozen or more times). Have fun, Doug - payback is finally here if you want it. And if you want those emails for purposes of the GBI investigation; you can request them from me by pinging me here in this group - I will watch the group for a few days until you decide if you want to get Steve arrested or not.

And Steve; you liar and loser; if you see this - I hope this guy has you arrested. Couldn't happen to a bigger asshole than you. Now you can have your payback for posting people's names and addresses illegally for the purpose of harassment; like the times you posted Doug's court orders about child support and all the other sick stalking stuff you seem to get off on. Have a nice day, felon.

Fat Teddy Kennedy will go into Vodka overdrive over this. If he'd take a few
Arabs for a ride, he'd show them how to swim for their lives, but only AFTER
he leaves them to fend for themselves.

My Paul Schreck troll served its purpose.

For the last ten days I've watched as my New Sheriff In Town troll pitted you guys one against the other. To watch the verbal exchanges was reward enough, but to watch you guys argue amongst yourselves was the best yet.

You guys went nuts looking at headers while stumbling over yourselves to get "one up" on the other in the quest to figure out from whence my post originated.

The best part of this was when Paul himself commented that he would be posting complaints to my ISP for my sheer audacity. For what? I did not use Paul's name, remember? I used a name similar to, but not exactly as Paul spells his name.

Seems that stuffed-shirt Paul and his like-minded egocentric cohorts dislike being chastised, or worse, being made fun of.

By the way, Paul, I'm still waiting to see those complaints you offhandedly said you would lodge. Empty threats?

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.

Have I missed anything?

Mopey loves posting people's addresses on Usenet - wonder if he will go to jail when that guy finds out? They let him out after he killed his daughter (crop dusting accident? Puhleeze!); so who knows if this is enough to put the alcoholic child molester back behind bars? If this guy is shoveling your snow and mowing your lawn; you might want to make sure he doesn't think you are Jewish. He calls them "kikes".

Now if SOMEONE could just set up an online

wars of several years ago, the cycle would be complete.

WWW.HAMJAMMERS.COM

Free Audio Downloads From The Dark Netherworld of Ham Radio:

The Most Infamous Lids To Ever Disgrace The Amateur Service!

This website is devoted to demonstrating what an absolutely
worthless, stupid hobby ham radio is.If anybody tells you that
ham radio is fun, or interesting, or that you will meet nice,
interesting people by becoming a ham, DON'T BELIEVE THEM!

Hams are the biggest group of whiners, snivelers, complainers
and all-around no-talent losers you will ever meet.This is
because the system itself is a veritable recipe for selecting
dweebs and idiots with pocket protectors: Take a fat
dweeb who has no friends or social skills and can't
get a date; give him a trivial exam where the questions and
answers are all available beforehand; and then give him
a license and tell him he's somehow "special". Voila!
You have an insufferable, boring ham radio operator
who thinks he's morally and intellectually superior to
other people.

It's inevitable. Don't make the mistake of getting
involved in this hobby!

WARNING: Some of the audio files are
rated "R"! Your Webmaster cannot be responsible
if you become addicted to listening to jamming recordings
and you lose your job because you don't show up for work.

Look at the crappy no name coax and super cheap connectors on their
website before you decide anything. BTW, they have a very bad
attitude. One of their salesmen was on one of the sci.electronics
groups telling people off.

To learn the technical TRUTH about CB Radio without all the hype from people who are just plain ignorant, check out the following books from CBC International. They're selling right now at a big discounts on our EBAY & AMAZON stores too.

Check it out!

To see exactly what these books look like, plus all the specific, chapter-by-chapter details, see our Web at:

www.cbcintl.com

Some of the books included are:

BOOK #1: THE "SCREWDRIVER EXPERT'S" GUIDE To Peaking Out & Repairing CB Radios. List $25. The most popular "big dummy's" guide ever published on do-it-yourself CB repairs & modifications. Covers peaking of receivers, transmitters, modulation, mike problems, antenna & SWR problems, detailed frequency modifications for both crystal & PLL radios. Loaded with charts, illustrations, and specific instructions for most brands including the new export models. This latest edition also covers slider and broadbanding tricks, FM conversions, and much more!

BOOK #2: THE CB PLL DATA BOOK. List $20. The only complete reference source on CB PLL synthesizer circuits ever published! Detailed PLL theory explained in layman's terms. How they work, and how to modify them for many more channels. Includes specific PLL block mixing diagrams, truth charts, & IC pin function diagrams for nearly every PLL chip ever used. Covers all the most popular U.S. & export chassis, with specific listings of all models using the chip.

BOOK #3: UNDERSTANDING & REPAIRING CB RADIOS. List $42. Giant 370-page technical book for the professional repairman. Picks up where the "SCREWDRIVER EXPERT'S" GUIDE leaves off. Includes circuit descriptions & troubleshooting guide for 23- & 40-Ch., crystal & PLL, solid-state & tube, AM, FM, SSB, CW, American & export models. Covers test equipment (& where to find it), transistor basics, synthesizers, receivers, transmitters, power supplies, T/R switching, antennas, interference, parts & accessory sources. Over 350 illustrations including schematics, charts, and photos. Huge subject index also lets you look up repairs by symptoms. This is "must" reading for any serious CB technician!

For details on our Galaxy-Ranger Service Manual (2nd Ed.) go to:

You may want to get some help with this anger problem you, and many of us in this group seem to have and hold on to, until the given moment when there's an opportunity to vent. My experience has shown me that when I start expressing myself like that, there's usually a problem within myself. In my case, it was worth the investigation. But if that's not the case with you, great! It's probably every body else that's wrong.

You responded to a NG troll, but your theory needs to be addressed.

> You are a perfect example of the problem

I would say that since helping (using) Israel is to our advantage, therefore the problem merely exists in your mind.

> Too many people in this country more loyal to Israel than the US.

Only the Jews. Remember when we sold them some F-16s to level a nuke plant in Iran? Get real, we supplied the equipment, they did the dirty work.

> Get your FAT ASS there and fight for Israel if you love Israel.

At the moment we are not fighting for Israel. You obviously have no clue as to what this war is about either in the media or the true reason as to why we are sticking our nose in the mideast.

> Before Israel, we had no enemies in the middle east.

Before communism we had no enemies in USSR, China, Cuba, ECT... What's your point?

> Every country the jews enter, they end up getting their asses kicked
> out.

They are surrounded by people that hate them, yet they have managed to hold on to their little piece of desert for some 50 years now.

Haha, you said it BT. All of this shite is coming from a very disturbed
loser by the name of Scott Gilbert. His whole pathetic Usenet existence is
described in this website.

http://www.insurgent.org/~kook-faq/scott/index.html

Be sure to read the "What was Scott's early Usenet posting like" section,
to see what a deviant freak he is. The site is a bit long, but it describes
him to a T.

He follows me and others around from group to group humping legs and
regurgitating the same old lies and deceit. He really needs to grow up or
at the very least stay away from the internet.

He posts from a half dozen different servers under various names in order
to circumvent kill-filters, and frequently calls people pedophiles or some
other disgusting thing.

Here's a couple hundred examples of his pedophile accusations under two of his nyms.

http://tinyurl.com/estwu

http://tinyurl.com/f36nm

He is a completely sick in the dome lunatic.

You have no realistic view of the problem.
Every other country in the world understands. Why don't you?
The land was stolen from the Arabs. Now the jews seek to
steal more and more land. They have been occupying a land
for over 50 years. It's about land and OCCUPATION.
Did you know it was the jews who introduced terrorism into
the area? They did. Their actions are despicable and they
are a Godless people. Most are very secular and immoral..
no religious as some would assume.

There's a price for occupation. Always has. Always will.
The jews need to deal with it or get their butts OUT.

nope the arabs did the jewish Irgu did use terror and quite effectively
as well
the Irgun won its terror and in less than 10 years

disagreing with you is not a lack of aturity

nor is is a sign of any lack of language skills

I frankly don't see it as as pam (and BTW I am sure the original poste
thanks you for the attentionyou are helping his prodcut to)

spam is preferable to sexual inuendo which has become the NGs sock in
trade

I would rather see an ad for something that might be usefull in the
gruop than what what we see

as far as I am concerned to be spam it is has to e non related to the

Mopey is the same moron posting as Kantou Jr.

The only poster in your ng on Sunday was Mopey... in my ng was Kantou Jr. ...that and the fact that the posting times are close enough is enough for me. He obviously has access to various ISP's.

Perhaps he should revitalize his schitzo friend Stanley... far more interesting a character ;)

How about India, do they understand?

Tit-for-tat retribution for what happened in India should be levied against muslims. The gitmo prisoners should be killed one-at-a-time until enough information can be gathered so as to save 200 "non believers" (aka "world" civilians).

If all gitmo prisoners die before 200 civilians can be saved, so be it. The gitmo's prisoners vowed to die for their cause anyway.

The loosing side in a war will have more casualties.

Zarqawi died 19 hours after 6/6/06, see chapter 74, verse 30.
EVERYTHING about him was, and will be considered, the devil's work.

You think everyone that hates you must be Scott Gilbert. Why do you hate Blacks and Jews, and why did you try and have sex with a 15 year old boy? You going to keep claiming I had WebTV in Atlanta in 2000; liar? Last I checked, I was in Connecticut in 2000 and did not even know you, pedophile. I first saw you and your racial slurs in 2004 in the NASCAR group. You will do anything to hide your lunacy. Bottom line, freak; I don't care what you convince people of - sooner or later the people that hate you will uncover your anonymity. Maybe that guy in Atlanta you have been stalking and posting the address of will call the Georgia Bureau of Investigation and they will track you down to your little trailer park and your Dodge Omni; fucktard.

Funny... Pat was here for some time raising hell and just as quickly
poof... then Kantou-Mopey popped up. This person never leaves- just
morps into another asshole.

So where have you been hiding mister?

I have a feeling about ole' Stanley but it really doesn't matter anyway.
Just killin time waiting on camp. I'll be able to get a day or two in before
I leave, so I'm happy. And once camp starts up there's new stuff to talk
about every day. Who looks good, who looks like shit. Who did that and that
and who lined up here and who got hurt and etc. 10 days till the first
public camp, let's go.
```

That's cool dood. I sure hope it cools off heat wise for you. Those
friggin' flies will eat you alive. Will you be back in time for camp?

The wife is off to lancaster, PA for a week of training the first week
of Ravens camp so I'll probably hit it each day of that week.

We (the USA) stole the land and put the jews there. We had to do something with them, so why not put them where we can use them.
The muslims started the terrorist nonsense because they were pissed that the jews had what they consider muslim holy land.

They are dealing with it. And with US weapons and intel to boot. If we have to make the mid east a nuclear fallout area, so be it. Iran better knock off their nuke nonsense or we will do to them what we did in Iraq and Afghanistan.

Yeah... i should have read this post first before the other. Has the answer about you and camp. I'm glad you'll get a fix to tide you over.

last offseason was bad but this one has been the worst for just nothing coming out of the NFL. Who isn't tired of hearing about that asshole in Pittsburgh... slooooooooow offseason.

That's some funny shit in a demented sort of way. I bookmarked it so I can
read the whole thing when I get time.

Well, with our slew of free agents, I think our offseason has been pretty upbeat and moving along nicely. The Cavs playing a few playoff games helped pass time quicker too.

I think there are some decent offseason stories.

Will Reggie Bush live up to the hype?
Can Herm take the Chiefs to the next level? Larry Johnson ready to take the roll of the NFL's best RB?
Will this be the year Peyton gets over the hump and can they do it without the Edge?
Who will be the next Bengal to get arrested?
Does McNair have enough in the tank to help get the Ravens back on the right track and if not, how soon will Billick's fire watch start?
Keyshawn to the Panthers.
TO vs Tuna
Can Phil Rivers step in for Brees and be effective?
Can Randy Moss return to glory or will he bitch his way out of Oakland?
Can Culpepper shake off that horrible year and get back to what he was?

I could go on and on, :-)

As a die hard Chiefs fan the answers are No and Yes.
Herm has the worst time management in the NFL.
Larry Johnson looked great last year and there is no reason why he shouldn't
be better this year.

I agree they are all great questions... and I could add a dozen more. I don't know what your local media is like covering the Browns in the offseason, obviously this is an active one for the Btowns, but here... unless there is an arrest, we don't read or hear a thing until camp.

There were 5 murders in Baltimore overnight however.

In that vein I suppose no Ravens news is good news. I was hoping we would at least have a fairly difinitive answer as to who the new commisioner was going to be.

LOL... I hear ya.

I heard today that ESPN and a few others are feeling very good about the Ravens SB chances this year with McNair at the helm. This kind of "on paper" preseason speculation from those who should know better, you know "experts", just gets me. They totally dismiss the fact that we have not upgraded our offensive line, lost some quality DB's, etc.

Perhaps saying nothing is better than saying just anything!

This division is gonna be rough this year. The Ravens did get better, imo. How much? I dunno. Not enough to win the division, I don't think, but stranger things have happened. I mean, Cinci won the division last year. The Bengals. Come on. End of days is near.

I'm interested in what the d is going to be like too, but is Herm well rounded and able to utilize one of the best offenses in the NFL? Time will tell, preseason is just around the corner.

Even a blind squirrel right? Nah... the Bengals are building well and Marvin is a fine HC. If T.O. Jr. doesn't upset the clubhouse they shouldn't miss a beat contending with pissburgh.

The Browns have an impressive future QB in D. Anderson. I was so impressed by him in Ravens camp. When his time comes I'd favor him against Carson or Ben. We lost bigtime letting him slip away. I like most of the moves made this year by the Browns.

As it stands though, if all starting QB's in the division get knocked out for the season the ravens have an outside chance... aside from a minior miracle in that our OL steps up I figure 5-11 for my ratbirds this season

The division is going to be rough. I believe it will be the best in the league if my team shows up at gametime with some goobers (not the edible kind).

An organized authoritarian democracy?!? Mussolini...

A quiet use of "a man becomes his flattery" (both good and for evilï¿½or
simply defamation).
The making of a holy and sacred female body (to be bought and sold on
your local index).
A white lie, a little extortion and a little murder.

A girl without friends has only enemies; a sacrifice in public to the
gods of old. To be bled so that we may find meaning.

A bureaucrats prayer.

Despot ourselves in righteous anger.
Free us from reflection.
Hide from our eyes what we've become.

Let judgment be for the weak and those who do not defend themselves.
Let deliberation be of one mind and one thought.
Let justice remain buried in an unmarked grave.

Without consequence, return me to my everlasting sleep, please, I beg
you.

Curtis Martin was rolling along on the extended warranty underneath him and Pennington just couldn't stay healthy otherwise that offense wasn't all that bad.

tsk tsk.

rhyming on dialup is so uncivilized.

you can't afford broadband? or does shitwater, georgia not have it yet?

Yeah, I should probably proof read before flaming someone. At least it provided some amusement.

1282. Day 217 (YAWN) of Mark crying he was "libbeled".

Day 217 of Mark crying...
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither of them can spell.

Have I missed anything?

"He said he was a Kentucky Colonel. And he works as a consultant for the Government, then said he was tech support..... "

Hardly. You measure your bandwidth in Megabytes per month. I measure mine in Megabytes per second.

See the difference?

Do you like being anally raped every month? You must. Why else would you continue with your current provider?

you can't even encode a morse message. what an idiot. does mommy type
your usenet poasts for you?

how the hell can you claim to be a radio operator when you don't even
know morse code? is that a requirement for radio operators? or did you
buy your license from "joe" at the comic book store?

Sorry to hear that. Have you hit any of the download caps that Hughes
enforces? How is your latency? Is it two-way or do you send upstream
traffic via telephone line?

Oh, and your ISP still sucks tho.

never hit sort of cap that I know of.
latency? you mean lag about a sec or so

full 2 way Id never make make out of the couty on landlines It is
lovely country but but bears do outnumber people in the townships
wolves outnumber by about 2 to 1

answering yourself again,tard??

aren't you the faggot who offered to suck off slow code if he'd get off
your case.

slow code is a real man and wanted nothing to do with you.

you probably did blow dave.

Niggers started HIV [an old freind]
#7440 - 07/18/06 09:05 PM Edit Reply Quote Quick

HIV, AIDS or "The Black Plague" only niggers could have caused this!!
An infectious, disease caused by a nigger virus and brought on by the
black race. which attacks the niggers immune system and impairs the
niggers ability to think or fight diseases. AIDS has become a worldwide
epidemic thanks to homosexual black males. this is due to living in
filth like ghettos,black women who don't bathe,sharing needles,eating
out of trash cans,black inmates having anal sex. the black population
is 99.9% likely to give and get aids than any other race!!.

Hello all,
Well since Mark doesn't have enough sense to NOT respond to the trolls, feel free to send your compliant to Abuse@hughes.net. I have sent a complaint, you might want to word it the same or simular, also have included the entire posts already, feel free to copy & paste to save the time:

Hello & Good Morning,
I do know that these types of complaints take a while to get resolved, but this persons constant spamming of the newsgroups under half a dozen different nics is frustrating. He does not post on topic, he posts the same message over & over , cross posts it to a number of groups that have no bearing to the topic of the newsgroup and just plain continues the flaming of individuals. In just a 12 hour period he's done some 27 posts, under 3 to 5 different screen nics.
Per your very own TOS (to which I have included below), he is in continual violation of them. Please, please ask this person to post on topic or at least stop cross posting these posts to the wrong groups.

g) to bombard individuals or newsgroups with uninvited communications, data or information, or other similar activities, including but not limited to "spamming", "flaming" or denial or distributed denial of service attacks

(j) to post information on newsgroups which is not in the topic area of the newsgroup; (k) to interfere with another person's usage or enjoyment of the Internet or this Service;

p) to generate excessive amounts (as determined in our sole discretion) of Internet traffic, or to disrupt net user groups or email use by others

) to use the Service or the Internet in a manner intended to threaten, harass, or intimidate others

lankshark hit is not a violation of of the tToS at hughes net or most
ISP's to defend oneself from libelous posts by other users
particualrly when the respnses are done politely without the same sort
of libel as they respond to

you have choosen to side with the libeler indeed were hughes net to act
as you wish them to they would expose themselves to libiality for
action by ME against them

indeed you are engaging in conspriacy to stalk if it iever came down to
it, by eanaging in actions in furtherance of the same criminal
enterprise

you have also libeled me yourself in claiming I have never posted on
topic materail in this NG, and you are doing as of solicting further
conspriators to your action

why not try ToSing Wisemen and tose that make the libelous posts?

I suspect becuase you support the nature of the libel, prehaps not but
a person could be forgiven for comeing to the conclusion

True they should be blowing on the heatsink, but having one fan blowing
inside might not be all that crazy of an idea. I'm quite certain that the
inside gets pretty warm as well. The cooler electronic components are, the
happier they are and the longer they live.

Day 217 of Mark crying...
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither
of them can spell.

Have I missed anything?

"He said he was a Kentucky Colonel. And he works as a consultant for the
Government, then said he was tech support..... "

becuase somebody that just happens to share my name was sent to the hospital in nearby city with his attackers claiming he was child rapist, they also tried to burn down his home a few days after wisemen posted this person name and address on RRAP, making those charges against Me

Frankly I feel responible to extent for it happening

I also remeber the reading about the 20'-30's in Germany and I don't like the paralels I see in many of these posts and the newppaer acounts letters to the editor of those days

as as result, after carefull reflection I decided that as long as I was going to post on USENET at all I would oppose these posts and this sort of conduct

I see them now. What a shame he hacked it up instead of getting the proper
fan kit. I guess now the question is, how do you mount this with the fans
protruding from the top. Nah, that crap would have to go. Buy a fan kit or
don't overwork the pills with long keydowns.

On the inside of the amp he should only need one fan and mount it inside
instead of having the camel humps to deal with and put it on one side of the
SO239s with the slots on the other side.

I am not going to this link because it says it is a porn link. Looks that all the Palmer fans post in this thread. Where is Kim? Kim come out of hiding. Usually you spit your hatred and defamation in my face. Why don't you come out now and speak for your husband?

Is he innocent or not? And if he isn't innocent, is that why your kids having to take p$ych drugs?

I have yet to Landshark make any statements that were of a stalking nature,
but it's nice to see that you know that what you are doing is in your own

Ignore them. You are rewarding them for their bad behavior, and they will continue to harrass you. They tried it with me and they have moved on as I did not respond as they desired. The same way I dealt with you. I killfiled you and every once in a while I will see a quote where you are still humping my leg, yet I ignore it.

he (and you) support therefoere the right to harras people into

seilence, such a righht does not exist
ofcourse coward that you are you will not read these words
hughesnet and I have discussed the matter and they support my right
(while questioning my wisdom) in acting as I have

you and Landshark et all can face that fact and deal with the source or
contiue to adi and abet them your choice

it is part and parcel of general effort to harrass me and hound me

his objections hole there root cause in the code nocode debate of Ham
radio in stlaking around the net to for something to use to silence me
one these fellow entoured something sugesting I was bisexaul attepted
blackmail on the subject . That I am bisexaul is not something I try to
advertise on a radio NG but it is not something I am shamed of or hide
so I said go for it he pblished that "denouncement" was supposed to
silence me or I was supoed to deny it etc

that I am open about it has begun an now 8 year harrassment on these
forums and off
included are what eevrybody sane (which excludes LE) would call death
threats and stalking

I leave these forum whn nothing is going on that interests most recent
return ws for the last round (we hope of the node battle) I intend to
hang around through the end of that if I can (a matter of pride and
principle)

I course I have not posted them I only rarely post a link at all
but you woger are doing so morning noon and night esp where they don't
belong

after all woger only you call me "marqueer"
but for all that may you find the peace you so desperatly need and
relief from the demons that plague your every waking (and likely
sleeping hour too)

It is against his TOS or AUP, whatever you want to call it. Also polite is not
wishing or saying someone should be murdered.

All I want him to do is stop cross posting this dribble to Rec.Radio.CB and responding to them, I've taken no sides. OMG!!!!! Does he really think that he would have some sort of "liable" case against Hughes because "HE" clearly violated the TOS & AUP that "HE" agreed to abide by????? LMAO!!!!!!

Yeah, I've stalked him, by asking him not to spam (to which he is), not respond to the trolls (to which he does), please follow his ISP's TOS & AUP (to which he is not), all of 3 times.....He posts some 30 to 40 times a day the same message and I do it 3 times in a 3 month period..... HE claims I'm stalking??? Too funny.

Hello,
You have a customer that is doing nothing but flaming, using some of the
most vile & vulgar language you have seen. You might say kill file him, no can do. He is constantly changing his screen nic to by pass news reader filters. He also is cross posting these to totally off topic news
groups just to create a pile of responses (to which do nothing but clog up the group)
Per your AUP (Which is included), he is in clear violation, please have this person stop posting like this. How would you like a 8 year old
to read this stuff? start talking like that because you have let this person continue like this? I wouldn't.

USENET Postings
All postings to USENET groups must comply with that group's charter and other policies. Users are prohibited from cross posting to unrelated news groups or to any news groups where the post does not meet that group's charter. Continued posting of off-topic messages, including commercial messages (unless specifically invited by charter), is prohibited. Disrupting newsgroups with materials, postings, or activities that are (as determined by Level 3 in its sole discretion) frivolous, unlawful, obscene, threatening, abusive, libelous, hateful, excessive, or repetitious, unless such materials or activities are expressly allowed or encouraged under the news group's name, FAQ, or charter.

Actually you are wrong DD ;) I just want him to stop repsonding to the
trolls and post something more than "get help" of "Peace"

Also since he seemed to not keep the subject correct, I've fixed this for him

Hello & Good Morning,
I do know that these types of complaints take a while to get resolved, but
this persons constant spamming of the newsgroups under half a dozen different nics
is frustrating. He does not post on topic, he posts the same message over & over ,
cross posts it to a number of groups that have no bearing to the topic of the
newsgroup and just plain continues the flaming of individuals. In just a 12 hour
period he done some 27 posts, under 2 or 3 different sreen nics.
Per your very own TOS (to which I have included below), he is in continual
violation of them. Please, please ask this person to post on topic or at least stop
cross posting these posts to the wrong groups.

g) to bombard individuals or newsgroups with uninvited communications, data or
information, or other similar activities, including but not limited to "spamming",
"flaming" or denial or distributed denial of service attacks

(j) to post information on newsgroups which is not in the topic area of the
newsgroup; (k) to interfere with another person's usage or enjoyment of the Internet
or this Service;

p) to generate excessive amounts (as determined in our sole discretion) of Internet
traffic, or to disrupt net user groups or email use by others

) to use the Service or the Internet in a manner intended to threaten, harass, or
intimidate others

All snipped.

It's really a shame I don't live near you, as I'd make cutting your phone and cable lines my daily hobby. And don't think that can't be done because you may shoot someone as you've implied in the past. It does not need to be done at your property. Just access to the lines is all that's needed, and I could do that at the drop of a hat. Hopefully, someone within your local area will take this idea to fruition.

Speaking of the retarded, here's a blast from the past:

==========

Prof, you are full of it to your earlobes. Rather than go thru it all
again, there is NO, repeat NO way any amp drawing on less than half a
cycle
is linear. It may be linear enough when what is really being run is a
bastard Class B which is exactly what you are doing. In this case you
may
expect Class B efficiency with Class B heat.

You are playing semantic games with yourself and us in the process.
Yes, in
a semantic sense Class C is 179 degrees. To anyone with any sense it
is
about 120-140 degrees with examples down to 60. They are largely
self-biased via a grid-leak with only protective bias applied if
needed by
any direct means. Your use of the 0.7volt forward barrier of a
bi-polar
transistor is dictionary Class C only; no tech manual would bother
with it
because, as Young Frankenstein put it, it's doodoo. It is simply
slightly
overbiased Class B.

Your belief in the flywheel or flyback effect of a tank is right up
there
with Linus and the Great Pumpkin. It doesn't happen that way.
Putting a
100 hz tone on a carrier and feeding it thru a proper Class C amp
would
result in the modulation keying the amp and producing a sound like an
infuriated electric razor. Linear my pretty pink tushie.

Now you will more than likely tell me about AM transmitters using
Class C
finals and you would be correct. What you forget is that the
modulation is
APPLIED to the final, not contained in the driving signal. The finals
do
not amplify a modulated signal because they can't. Because FM uses
steady
levels, linearity is not an issue.

If you paid some attention to matching and levels in the tank you are
one up
on most of the bozos building amps down at the local bodyshop. But if
they
got the same level of technical understanding I see here so far, I
have to
seriously question whether any such amp exists.

Michael the faggot's torment increases as he is made to strip and piss for the class. (MM/m-teen, exh, nc, 1st, mast huml, forced nudity, ws)

***

"Please Sir; I can't piss in front of all these guys. Please don't make me..." Michael was actually begging. It was so fucking hot. Even the straight guys in the room had boners from watching the pussy-queer beg and whimper. Somehow, watching faggots being degraded makes most straight guys sexually hot. I guess it just reminds them of what men they are.

"Shut the Fuck up Cuntface!" doctor Brass shouted and the guys in the room cheered. He loved it when they idolized him. "Take a faggot piss in that plastic cup right now, or I get on the horn and tell your daddy that his son is a cocksucking faggot and will be kicked out of our school!"

Poor young Michael, what could he do? He took a deep breath. He felt sick to his stomach. He held his dick in his hand and tried to piss. The guys in the classroom leaned forward. He had to take a piss in front of all these jocks. They would all see the piss shooting out of his dick.

Michael squeezed his eyes shut. "Please help me to get out of this mess, God..." he prayed. But God was busy helping straight boys. So Michael had to piss. His hand shook as it held the plastic cup. He sighed and let the piss flow.

"Now notice boys how thin and weak his piss stream is. That's because most faggots have very small piss holes. Not like yours. I'll bet most of you guys can almost get a little finger in your piss slit it's so big and I know that when you piss, it's a real gusher. Sometimes in the locker room, I can hear your piss hitting the porcelain of the urinals, and it sounds like fucking Niagara Falls."

The guys cheered.

"I don't know if any of you dudes have ever tried pissing up the twat or ass of the girl you are dating, but it's quite a rush. You really ought to try it. It's also lots of fun to piss into the mouth or up the ass of a faggot. If there was any justice in this world, we wouldn't need urinals at all. We'd just have a bunch of faggots on their knees all day in the men's room, mouths open, ready to take our piss."

The jocks were really tugging at their crotches now, squeezing their hard dick lumps, wanting their pricks out in the open so they could jerk them. Most of them couldn't wait until class was over, so they could call up their twats and arrange a fuck date.

Michael stood there and pissed. His tiny dick filled the cup half full of piss. Then the Doctor took the cup with the warm liquid and held it up. "Also notice boys how weak and pale the Faggot piss is. Not strong and yellow like your piss. Well Faggot, here you go." He handed the glass back to the faggot.

"What should I do with it?" The faggot asked.

"Drink it, you dumb cock knob!" one of the boys yelled, and all the guys busted a gut.

"Oh God, I can't do that. Please don't make me do that!"

"You heard the boys. A faggot has to learn to always follow

the orders of real men. He has no choice. That's his life. He must do whatever straight guys say. So Faggot, open up and have a nice drink. Drain the glass."

Wasn't it bad enough that he had to stand bare-assed naked on a chair in front of these guys and take a piss into a glass. Must he also be subjected to the total humiliation of having to drink it besides? I guess so!

With trembling hand, Michael raised the cup to his lips. He could smell his piss. The cup felt warm. He opened his mouth and started to sip the urine. He gagged and put a hand to his mouth.

"If that's puke you're spitting up boy, better swallow it again. If you vomit, I swear to God, I'll make you lick it up!"

Michael swallowed his bile and then swallowed the piss. He decided if he drank it quickly, he wouldn't taste so much of it.

"Whoa, hold on there Faggot... I want you to swish it around in your mouth like fine wine. Gargle with it before you swallow it." The sadistic Doctor wasn't missing a trick. "I want you boys to make this Faggot drink your piss every chance you get. I want to see him walking around with his stomach bloated with piss until he looks like a pregnant sow!"

Michael curled his toes on the chair and cried so hard he got the hiccups as he sloshed the piss around in his mouth.

"At the end of today's class, I'm going to send you boys into the bathroom with beer bottles. I want you to return with them filled with your piss. That way, the faggot will have plenty of refreshment over the next few days."

Michael's stomach rumbled from the piss he had drunk. He handed the glass back to the Doctor.

"Now that his bladder is empty, let's measure his clit and balls again. My God, Boys, look... they are even smaller than before!"

"Doc," Collins yelled, "He must use a tweezers and magnifying glass to jerk off."

The good Doctor laughed. "Well speaking of jerking off, lets see how someone with a tiny dick this size does it. Okay Michael, show us how a faggot jerks off."

Eighteen year old Michael couldn't believe his ears. They expected him to masturbate right in front of all of them!

WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither
of them can spell.

IN CONGRESS, JULY 4, 1776

The unanimous Declaration of the thirteen united States of America

when in the Course of human events it becomes necessary for one people
to dissolve the political bands which have connected them with another
and to assume among the powers of the earth, the separate and equal
station to which the Laws of Nature and of Nature's God entitle them, a
decent respect to the opinions of mankind requires that they should
declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created
equal, that they are endowed by their Creator with certain unalienable
Rights, that among these are Life, Liberty and the pursuit of
Happiness. - That to secure these rights, Governments are instituted
among Men, deriving their just powers from the consent of the governed,
- That whenever any Form of Government becomes destructive of these
ends, it is the Right of the People to alter or to abolish it, and to
institute new Government, laying its foundation on such principles and
organizing its powers in such form, as to them shall seem most likely
to effect their Safety and Happiness. Prudence, indeed, will dictate
that Governments long established should not be changed for light and
transient causes; and accordingly all experience hath shewn that
mankind are more disposed to suffer, while evils are sufferable than to
right themselves by abolishing the forms to which they are accustomed.
But when a long train of abuses and usurpations, pursuing invariably
the same Object evinces a design to reduce them under absolute
Despotism, it is their right, it is their duty, to throw off such
Government, and to provide new Guards for their future security. -

Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their Public Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected, whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.

He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people and eat out their substance.

He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.

He has affected to render the Military independent of and superior to the Civil Power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock Trial from punishment for any Murders which they should commit on the Inhabitants of these States:

For cutting off our Trade with all parts of the world:

For imposing Taxes on us without our Consent:

For depriving us in many cases, of the benefit of Trial by Jury:

For transporting us beyond Seas to be tried for pretended offences:

For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies

For taking away our Charters, abolishing our most valuable Laws and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign Mercenaries to compleat the works of death, desolation, and tyranny, already begun with circumstances of Cruelty & Perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has excited domestic insurrections amongst us, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these Oppressions We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to

extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

We, therefore, the Representatives of the United States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be Free and Independent States, that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. - And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.

yes I have a phone line likely so do you

but I don't use dail up hughesnet is satilite based (haven't you you
even been foollowing the events of conerning the man you have been
harrassing for no reason at all) the only way to stop my from using it
by violence as you are suggesting is to attack the dish itself

I guess you folks are frustrated that you can't force someone to stand
still and submit to gay bashing with being allowed to defend himself

but then Tom you are a coward too afradi to even give your name

it is amusing how a number (all of whom are afraid to give their real
names) can't silence someone that they claim has done all sorts of
dastardly deeds but gives his name makes no effort to conceal his ISP

it tend to prove that those claiming he is doing dastardly deeds are
either lying or too ignorant to understand what is going on (or both)

go ahead tom make your idle threats aginst me that is all you can do

WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither of them can spell.

Have I missed anything?

wrong agian Tom full upload and download exists and I have it you realy
don't bother to get your facts together

indeed if I wish I can even be on here with you folks if you (or one of
your fellow terrists were to knock down the powergrid

no need for a dialtone try checking your facts they are about as wrong
as the assertions I have made death threats http://www.hughesnet.com/

Hate to tell you this, dude, but a lot of places don't even know what a real ham is, either. I have to go all the way to Wisconsin to go to a real radio store anymore. Back in the 60's we had Olson, Radio Shack and we could order from Burstein Appleby by mail. I was only a kid back then. And Radio Shack had real radio stuff.

BTW, did you know that the Twin Towers and the other buildings were built over the old Radio Row neighborhood in New York?

funny that isn't whtat it says

today there is some deabte on the point but once the law takes effect
there will not be the presummtion will exist the intruder intends to
use deadly force wether or not he is fact able to do so or intendeing
to do this this applies in such locations as I have sole RIGHT to
traverse

in other words according to an attonery as long as my property is
properly marked so me and mine have sole right to be there I will
expressly covered under the new law which was written to fillin some
preceved loopholes in the old law none of which he felt would likely
apply in any case involving me since there are in existing laws ruling
that cover expressly the fact I am not able to safely retreat at any
point given the condiction of my legs assuming you are in normal
condiction Lloyd in light of certain rulling in recent years YOU might
have been under a legal obligation to retreat from an intruder I am not
becuase I can safetly do so owing to physcal limits

my knowledge or lack will not determine my need for one the question
will be the respect for law and simple manners of others

there is checklist one more or less goes through but once you are dealing with violnece of the sort described indeed the existance of Dr Death, Toms, Robeson Wismen's posts offering physical violence agianst me more or less check off several items on the list

or against someone caught in the of a crime

you are simply ignorant of the law

The ignorance is yours, buddy. Even with the new Castle Doctrine law
recently passed in Michigan, it is STILL illegal to shoot at somebody,
anybody on your property.
If you believe this to be fact, may I suggest that you run, don't walk, to
your attorney of choice and retain him. With your lack of knowledge, you

there is checklist one more or less goes through but once you are
dealing with violnece of the sort described indeed the existance of Dr
Death, Toms, Robeson Wismen's posts offering physical violence agianst
me more or less check off several items on the list
..
First, Markie, there has been no violence. Your twisted "perceived" take on
the issue matters not.
Kind of akin to your spin that you were being "libbeled".
For someone to publicly state that they'd like to see your ass kicked across
two county lines is NOT a threat, though the idea has a certain amount of
merit. Nor is the statement that someone will be contacting your ISP with
complaints.
"Wismen" has simply castigated and taken you to task time after time after
time and you, like the anal person you are, distorts the comments to suit
your agenda.
Of course it has never once dawned upon you that you create the vile
responses aimed your way. Wait. I take that back. You DO go out of your way
to needle people like "Wismen", Dr. Death and others. You, in fact, sit back
and gloat that you have in some childish way gotten their ire aroused.

You sit in your chair, Mark, and comment ad nauseum to each and every post
on Usenet to the point of being sickening. A previous poster commented that
you are a nobody. A spam artist. I tend to agree with that criteria on both
counts.
You are a nobody, Mark. Before you comment that my response to your posts
counters my statement, don't flatter yourself.
I truly feel sorry for you.

agreed there has no violence yet merely the threat of violence

DR death and Fred have both demanded I met them so they can harm
prefrom vioelnce Robeson has talked about shooting me Wismen about
nailing me to a cross

Tom had advocated violence against my property yesterday in fact

You (assuming you are lloyd form time in this thread) enage in
systematic liees about matters of law

AS someone that is both somewhat phyiscaly limited and BLGT I HAVE to
learn the laws concerning self defense. you invoke "castle Doctrine as
if I needed it provisions to defend myself. I don't . the new castle
doctrine laws affect wether or not I (or someone) is required to
retreat as a conderation in the of force or deadly force in self
defense, beingphyslical limted as I am means in many occasions where
say Dr Death could retreat I can't. no one is required to retreat when
they can not do so safely. the rules makes things a whole lot clearer
and broader (not even sure I think the expansion to this level is a
good idea but it is done) indeed McClean of the sheriffs assocation
stated in his tesmony to the state that these rules create a "free fire
zone" arroudnd people's houses if they are dealing with a person they
feel and can support are stalking or harrssing hem and come from other
than the imedaite are" (BTW how do I know this mans assement is likely
to govern the view of cops in my county? becuase in addition to being
head of the MSA he also happen s to sherrif of houghton county where I
live)
> Kind of akin to your spin that you were being "libbeled".

when you make and report your 10 statement about my live and 8 of them
are proofably unture you are libeling me

> For someone to publicly state that they'd like to see your ass kicked across

and that isn't what they have

but you just advocatied violence legaly you made threat yourself
> Nor is the statement that someone will be contacting your ISP with

never suggested that was violence
> "Wismen" has simply castigated and taken you to task time after time after

Wisemen has disucsed nailing me to a cross for my alleged sins
taken me to task for what?

he makes allegation that are bogus and defamitory and seems intended to
incite at leats hositlity not in myself but in those around me and the
reaction fo Dr death Tom and Landshark rooves he succeeded
> Of course it has never once dawned upon you that you create the vile

Naow you venture off in to completly delusional terrtory I in no way
create these responses that shows you as a nothing more than lunatic

>Wait. I take that back. You DO go out of your way
> to needle people like "Wismen", Dr. Death and others.
no I have not

what I do is simply refuse to wear somekind of cyber whitewash to suit
them

you arguement is akin to saying black people provoke that KKK simply by
being black
>You, in fact, sit back
> and gloat that you have in some childish way gotten their ire aroused.

no I would raher not get there ire arroused, but neither will I be
silent and be libiled in public, nor will I surrender my rights to free
speech to whims of a bigot

it does counter your statement
it is isn't flattery it is simple truth
that repeat the same delusion crap is a clear sign that you are italy
interested why you are intterested (and why they are so vitaly
interested in my sex life in radio gruop I simply don't know but
thankfully I have no duty to understand why

> I truly feel sorry for you.
Indeed I suspect this may be a true statement on your part

and it is your prevledge if you choose to

never the less I will not driven out of a public forum where I have every right to because some narrow minded bigots can't handle the factsome people on the planet are bisexual and into radio

I suggest if You et all want an improved tone in the NG that you et all learn to deal with what the APA says are mental with somebody different. in general terms it is called by the pros at the APA "zenophobia" adnd most of the NG posts her and in RRAP for that suffer from from I am sorry for YOU et all

Sounds like the cb tards are again defaming a good man!

his credits:

My 3.5 wavelength six meter wire antenna is sure working great! May 21,
2004 I got 6 meter VUCC with that antenna and 50 watts. Email me for
details. It is easy to build and waaaay cheaper than a beam.
UPDATE: Now that I got VUCC with the wire, I am using a 4 element beam
at 56 ft. to add some squares to my first 100 verified for the award.

6 meters rules!

A fine ham keeping the magic band alive!!

Thank you doug

"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and fraud."
WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither of them can spell.

Have I missed anything?

"He said he was a Kentucky Colonel. And he works as a consultant for the Government, then said he was tech support..... "

Hey Hey,

Just put in a Midland 1001Z, with a 5' baseloaded antenna on a magnet mount on my truck (2001 Nissan). I get noise from pretty much all of my electric motors in my vehicle. My AC Blower fan, windshield wipers and windshield wiper pump are the ones I've noticed. The blower fan is the worst. The pitch changes if i increase the fan speed, and the loudness drowns out all but the strongest signals. What's odd is, I'm also transmitting this whinng noise! If I turn off the blower fan, I can receive and transmit just fine with very little noise.

If I disconnect the antenna, and connect just a wire with PL-259 connectors on both ends onto the radio, the noise exists as well, until the connector is is tightened all the way on, then it goes away.

My radio has been wired directly onto both battery posts with lugs, and is quite secure. I've tried putting in a noise filter inline (toroid and capacitor) and also tried an RF choke (iron core with copper wound around it), and nothing helped. I've tried the RF choike and noise filter inline with the blower motor as well, and no difference.

I've tried running a ground to the magnet mount antenna base, to the coax connector, to the radio, to no avail. I went to a clearing, and adjusted my SWR when I initiallyh installed the radio, and it was reading about 1.3 - 1.5. My car is parked about 5-10 feet from a power line, and when I measure my SWR around there, it reads about 2-3. Not sure if this is the power line, or if my SWR is really that bad, haven't tested in a field again.

I'm pulling my hair out trying to figure this one out. We did cut a few inches off the magnet mount coax, and reconnect another connector onto the end. The closest guess I have is that maybe the shielding is wack on the end of the cable? (Since a different cable without an antenna doesn't exhibit the noise when it's tightened all the way on).

You had the right idea -- it is a grounding problem.

Ideally you should install the mounting bracket directly to the
chassis/frame/metal, but that's rarely possible with these new plastic
cars. Mount it as close and possible to the metal and run a -very-
short ground wire, no longer than just a few inches. If that doesn't
clear it up then try running a shielded power line (any old coax will
work for that). And if -that- doesn't work then think about drilling
the hole and installing a proper antenna which -will- solve the
problem.

Unless the power line is vertical like the antenna, it probably has no effect. Improper grounding will have strange effects like that so don't worry about it until you get the noise problem fixed.

A few inches won't make any difference. A bad coax, OTOH, could (repeat: -could-) make a difference. But with a poorly grounded radio and a mag mount antenna, coax is the least of your problems.

You said that you had the antenna disconnected... and still heard the
noise. That may indicate that the noise is coming in on the power wire.
I would recommend a simple low-pass power filter, consisting of a
series choke and shunt capacitor. Actually, they used to sell a real
nice filter over at Radio Shack for around $10. You might investigate
that.

1585. Installing a 102" in the roof?

I was might tempted by the 102" whip, or some other equally long antenna, as it's definetly the king of obnoxious, however, I had some concerns with installing this into a pickup. How the heck do you install a roof mount that's strong enough to not rip out the sheet metal in your roof?!. Heck if I push my hand on my roof, it dents in (not permanently), and there's a second piece of sheet metal about 1/2 inch or so below that one. I'd like to install a roof mount, but it just doesn't seem like there'd be anything you could do to make this really strong. Those ball mounts looked the most promising, but even those have reports of leaking and rusting through.... Has anyone here actually mounted an antenna on the roof, what were your results? Was your sheet metal thin?

Yes, this is a common problem with Midland 1001Z, using 5' baseloaded
magmount antenna's on Nissan trucks. Cure:

Remove the CB, place it in the middle of your driveway, give it about 25
wacks with a 15 pound sledge hammer(over head swings are best), then
reinstall. No more noise. :-)

Happy to help.

WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither
of them can spell.

Have I missed anything?

I did that just the other day on my S-10. Mounted it right above the
dome light, near the rear edge of the roof where it's the strongest.
Then I ran the coax through the channel with the dome light power
wires and reinstalled the dome light. I did it that way so I didn't
have to cut the roof liner. Works great. I still wouldn't drive it
with a 102" whip on there, but a 5' fiberglass works fine and without
any funny noises. I took a pic if you want to see.

You don't put it in the roof. Get a bumper mount or if you have a toolbox
you can mount it there with half a mirror mount. If you must put it in the
roof, you will need large flat washers.

Ok, I have read several of all of your postings, and it's like reading Greek. I need help. I just inherited a CB set up from my uncle, but have no clue in setting it up. There is no local CB shop that I can find to help, and the books are worthless. Does anyone have a good resource, book or web page I can use to get this dratted thing set up right? I have learned a tiny bit from the resources on the web, and what I can gather, but I am sure I am not doing this right.
I have a Uniden PC68LTW (the actual CB unit), a Zetagi 230 HF SWR power meter (with a bunch of buttons on it including REF, SWR, and 20W, 200W, and 2kw watt range, and a workmans PS35 Dc regulated power supply. NOt sure of the kind of antenna, but it has to be mounted out of sight (so it is in the attic??)-- ie, I cant have it on top of the house, or in a tree.....
Resources anyone? I need to find out what the settings for all those meters are supposed to be, how to set them, how to get maximum reception and output, and how NOT to fry the system....etc.
Any input or resourceswould be appreciated.... I'd really like to use this... the little bits I can receive make me want/need to get better reception~~~just need either someone REALLY patient, or a good book/site that is in plain english for a real novice!

Hook power supply to radio, red to red, black to black. Hook input of SWR meter to radio output, hook output of SWR meter to antenna. You will need to move the antenna to another (outside) location. Set switch to the SWR setting, set the button to FOR, key the mic and adjust the knob until it is at the end of the scale where it says set, flip switch to REF and it needs to be as low as possible. Do not operate unit in the red or your radio will cease to function. They used to make an indoor antenna, I have no clue where you can find one.

You were right. I have eliminated ALL (as far as I can tell) noises related to my vehicle. I tried grounding the crap out of that magnet mount, nothing. I took it apart and tried everything, no deal. Got a underhood mount, and drilled that under my hood, blammo, fixed. I also tried just a mount stud and grounded that on my door hinge, and that worked too. So it is possible to test whether or not this works before you permanently install.

My SWR is 1.6 on all channels. I'm still getting about an S3 level of noise (which is what I got when my car was off anyways). Makes it a tad bit difficult to adjust the squelch so I don't drown out perfectly clear signals :| . People are reporting that I am transmitting alot louder, without a 'whining noise', however, I now have a 'popping' noise, lol! This is without the vehicle on, so go figure, probably static or something.

Check your mic. You might have a loose wire or dirty switch in there,
or maybe just a bad mic element.

The green cord was used to pull the coax and dome light wires through the channel. I installed the coax mount first for testing, and that's why the coax is coming out of the dome light hole. After testing I replaced it with a flush mount that allowed the dome light to be reinstalled.

As an afterthought, I should have used teflon coax (considering the poor condition of the dome light wires after years of summer heat), but it's an old truck and standard coax will probably outlive the truck.

Here's a place to start:

http://en.wikipedia.org/wiki/Cb_radio

After that, google "cb radio faq".

There are several good books on CB radio at your local library. Also
check out ham (amateur) radio sites and books -- the technical
information is just as useful for CB radio as it is for ham radio.

You can't even get a signal on HF loser. Are you still using those cheap
assed whips you've been noted as using so you can jam 3950 over the
years. That was you doing it because your signal was the same level as
some of your 75 meter transmissions.

Your scenario mentions that you would like your antenna inside the attic. Not good. It will not perform good inside and it will most likely not tune properly to the radio. All antennas are not alike. Antennas are made to be operated in a certain frequency range. Your CB antenna is made for the CB frequency range but you are changing its characteristics by positioning it to close to material in the attic that will interact with it.

You need to find a way to hide/disguise your antenna so that you can place it outside as free and clear of obstructions as possible.

At ant rate you will not harm the radio by listening regardless of your antenna situation. You can harm your radio if you transmit with a poorly positioned/tuned antenna.

Your SWR meter is made to check whether or whether not your antenna installation is acceptable for use with your radio. You should see 1, 1.5, 2,3 on its scale. The general instruction for operating the swr meter is to key up the radio and calibrate the meter full scale. Usually you have the switch in the forward position at this time. Then simply put the switch in the reflective position and read your match number. If it is under 2 then you are good to go.

wonder you can't pass the General exam. I bet you couldn't even pass
the No code tech again, pizza boy.

Gee Lardass, if you claim Roger hasn't got a signal, how could he jam
anybody? But you get on 20 meters and 75 with only a training wheel ham
license illegally. That's right, folks, N0VFP who only has a no code
tech gets on HF illegally. He's been DFed.

Wismen setting up the staion is easy even you could do it requires this
conect the cable to back or you Icom 910h (turn power up full)conect
the otherndof cable to mast mounted preamp run cable from preamp to
attnena
concent sound card interface to radio
point the end wth smaller eleamnts at the moon
turn and Viola at workable eme station
now geting the hang of the software take a bit more effort but I
suppose given what NASA trained chimps to do they could be trained to
conduct an EME qso these days

but Wismeen can't manage it

WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he has to ask people on USENET.
10) His best like-minded buddy lives in Glendale, West Virginia and neither of them can spell.

Have I missed anything?

Is there a magic key to Cobra's parts numbers on this radio? I'm looking at I "believe" D12 (not looking at notes so I may be off one number) - but it is the RF detect / SWR Calibrate diode I'm interested in. It appears to be a 1N60 in the radio. I have two faults to correct in this beast - the SWR isn't calibrating NOR measuring forward power. The other is a missing sengment on the lower part of the ones digit. I am hoping it is a bad solder joint or something stupid. The person doesn't want it replaced (to save money) - but I hate seeing things go out half assed. I'm working on getting the diode straightened out first. That will be job #2 of 3 done.

Alrighty, so I was a little wrong, and a little right when I said it fixed my problem.

The electric blower motors, windshield wiper motor, etc, noise has gone away. I just discovered that a power line right next to my house overbears all the other noise that I now discovered my car is putting out. My cars still putting out RF noise, I'm presuming from the spark plugs and the fuel pump. Any suggestions beyond the capacitor trick? My noise level drops to S0 or S1 when everything in my truck is off, and when i'm away from the powerlines (unfortunately, my car can only go about 30 feet from the powerline, which isn't far enough away to have an effect).

Any suggestions for helping reduce the powerline noise? (This is large main powerline that is going into my noise, not powerline for my car).

I tried putting my whip antenna onto a stud mount on a cable, and touched the ground to my doorhinge, about the same noise level, although I don't have a long enough cable to get this to my bumper or anywhere else far away..

I went through a couple different radios today. I tried a Uniden Pro 510 (I think) with an ANL. The ANL was useless on my vehicle, didn't help reduce the noise at all. I then purchased a Cobrta 75 WX (It's the radio in the microphone with a small wired in base) with 'Soundcatcher' or whatever, which I presume is a Noiseblocker, and not a ANL. This doesn't do much at all to reduce the noise either. I'm still getting about a steady S5 noise with my car on, or from the powerlines. With everything off, I can clearly understand an S3 signal.

If you must sit stationary in your car right below the high tension wires,
try pounding in a ground rod. (don't forget to disconnect before you go up
to the store to re-stock your essentials)

Hell, if he is remaining stationary all the time, it's time to get a base
radio and be done with it.

You can get a schematic and parts list, depending on what model you are
working on, at www.cbtricks.com . The display is probably shot if the unit
is old and well used. Some are interchangeable depending upon the model. You
could rob one from a parts unit if you have one.

Ground your radio. And by "ground" I mean an RF ground which you get
by mounting the bracket directly to the metal and/or using a -=SHORT=-
ground wire. You can't fudge on this ground.

Dude, that's some terrible gas mileage. Maybe your car just needs a
tuneup..... hey, I thought you said it was a truck?

That noise may be unavoidable. Can you do the flourescent bulb thing?

I'm using an L bracket screwed straight into my fender, it sticks out from under the hood. Pretty sure it's grounded. I've tried a grounding strap anyways on the antenna, and no difference, unless I ground the whip of the antenna, then my antenna doesn't work ;)

> Dude, that's some terrible gas mileage. Maybe your car just needs a
> tuneup..... hey, I thought you said it was a truck?

Yeah, well, I live on a VERY steep hill, my house in on stilts, our driveway is fill dirt and flat enough to park a car on, but anywhere beyond the fill dirt is so steep my truck will roll over. Unfortunately my 'flat spot of parking goodness' isn't bigger than 50'x30 with the powerline for the house going lengwith along it.

I guess I might want to look into a combo base/mobile rig, so I can run some coax down the hill to an antenna and get away from the powerlines or park in front of my neighbors house to talk. (People give you strange looks if you park in their neighborhood with your dashboard tore out, frantically trying to get a QSO).. One word.. TERRORISM.

Hello,
I have a galaxy 2527 dx that after i use it for a while, the modulation gets all garbled on AM,
I noticed that the audio output ic got very hot, I placed a small computer fan on the back side of the heat sink that the ic is mounted to. It still acts up after a little usage, So I replaced the audio output ic it is a TA 722ap, still getting garbled modulation after about 10 min. of usage. Can anyone help me with what else could be causing this ? Thanks for reading this post. you can email me with any suggestios that you might have. 73.

Wismen setting up the staion is easy even you could do it requires
this
conect the cable to back or you Icom 910h (turn power up full)conect
the otherd of cable to mast mounted preamp run cable from preamp to
attnena
concent sound card interface to radio
point the end wth smaller eleamnts at the moon
turn and Viola at workable eme station
now geting the hang of the software take a bit more effort but I
suppose given what NASA trained chimps to do they could be trained to
conduct an EME qso these days

but Wismeen can't manage it

No, I said ground the RADIO; i.e, the Midland.

I was just joking. But the power line is just the line going to the
house? I was under the impression that you were sitting under a major
distribution line or something. If the noise is coming from your house
power line you should be able to find out the source of the noise by
shutting off things in the house. A computer UPS or security backup
supply can cause gobs of noise, as can light dimmers and other small
appliances.

It would be better if you could run the coax -up- the hill and mount
the antenna as high as possible.

Oh. yeah. Funny thing about that. I can remove the groundwire from my radio and it'll get it's ground from the antenna cable. 1 wire power ;). But yeah, Tried touching a groundwire to everything on the radio, the coax connector, the back of the radio, the mounting screws. twisted the negative battery wire, the negative radio wire and the ground wire together, no change.

That's a good idea, I didn't think about the noise coming from devices IN my house. I have quiet a few noisy flourescent lights that interfere with my shortwave radio. Cursed cheap ballasts.

Hey hey.

I've tried 3 different radios, Midland 1001z (cheapest), some Uniden pro 510, and a cobra 75 wx (handheld type with "soundtracker".).

All of them for the most part sounded as good as the cheapest Midland 1001z. I'm looking for any recommendations on any radios that might have a noiseblocker which might help reduce some of my fuel pump noise, and powerline noise concerns that I have. I'm taking back the Cobra, and debating whether or not to get the cheaper midland again, or if there's some whiz bang radio that someone recommends.

Preferably one with a P.A.

BTW, The Midland 1001Z is *AWESOME* for the price. I bought mine for 40$ but I've seen them online for 20$ + S&H. PA, RF Gain, Squelch (of course). Small compact size. The speaker on it is awesomely loud and clear. Sounded much better than the Uniden 510 (Their cheaper/cheapest model). The case on the midland is grounded. I was UNABLE to power up by grounding the outside case..

Just a weird observation.

It won't make any difference unless that ground (from the car chassis
to the radio) is very short.... just a few inches. Bolt the radio's
mounting bracket directly to metal (or as close to it as possible),
then run a SHORT ground wire to the metal.

That's the difference between RF ground and DC ground. The cases of
many CB radios are DC isolated from the power supply ground, but at
the same time are AC coupled to it with capacitors to allow an RF
ground. But it is interesting that your coax shield is isolated from
the case -- I haven't seen that too often.

in the same sprit try working your concetions sometimes a bit dirt or rust will introduce capatance into your circuts where the circut is not expecting twist you you coax conection on thetogether a bit trying to sort of grind some rust out out concent and disconect the mike to rub the contact (if you have knobs trun back and forth a bit) this sort of thing sometimes helps the darnest problems

This new radio I got, the Cobre 75, had a little matchbox that the
radio plugs into (it has the power and the antenna cable coming into
it, rest of radio is in a big microphone. I tried shoving that around
on various grounded UNPAINTED parts of my vehicle, and no difference.

I'm wondering how close a capacitor has to be to the fuel pump to
actually have an effect. I'm going to try putting a noise filter inline
at the fuse block, and if that doesn't work, deeply ponder whether I
want to work under the truck on my gravel driveway ;).

Yeah, Actually Beaverton. Wet side. I'm on the other side of the hill,
a few miles from downtown Portland. I'm smack dab in the middle of all
of the interestates and major highways in Oregon (at least within 5
miles). The 5, 405, 26, 84/30, 217. I wish I could reliably hear
traffic on the 5!!

My little portable shortwave radio is easier to understand than my CB
radio is on the same signals ;)

Maybe I'll just duct tape that to my dashboard :D . Kicks major arse
with the 100 foot longwire.

CB's are disposable.

Just throw it in the dumpster and buy a new one.

Just to clarify, you grounded the "matchbox" part? And it didn't clear
up the noise? If so then that might be the best you can do. I would
focus on noise from some appliance in your house.

As close to the fuel pump as possible. Just throw down a tarp. It's
worth the effort. You could also try using coax for the power line
from your battery (and grounding the shield), but that doesn't always
work.

Yeah, I don't have the matchbox mounted yet, but I've grounded it to
all sorts of places, and no change.

You're a genius tho, I solved my "powerline" noise problem at home! I
isolated the problem to a compact fluorescent lamp. Turn it off, S0,
turn it on, S3. My truck is 40 feet from the light too!!!! Have to
chuck this thing in the garbage.

Powerline for the fuel pump or the radio? That's a good idea for the
fuel pump, never thought about it. Radio... I question whether or not
the noise is coming from the radios power source.

Doesn't take 2 hours to drive 2 miles, but it can. Usually an hour for
20 minutes... They designed the interchanges stupider than crap, and so
those eat up 50%+ of your time at near idle speeds.

It's still best to ground the "matchbox". It may not help much in
receive, but may make a difference getting your signal out during
transmit. And it -will- stabilize your SWR.

If the noise is coming through the radio's power line then a cap from
positive to ground, as close to the radio (or 'matchbox') as possible,
should reduce the noise. Otherwise, the fuel pump is creating RFI and
transmitting it on -its- power line, and is being picked up by your
radio. In that case you need to cap the fuel pump -at- the fuel pump.
I would do both..... but that's me.

I never thought about running coax for the fuel line -- sounds like a
good idea. I'll have to try that sometime.

Yeah, I never could figure out if they were designing that freeway
system from plans or if they were just using 'the force'. Eventually I
learned how to sneak around the quagmire via Sandy. I remember
Portland used to have a Heathkit store..... what ever happened to
that?

Now don't be making fun of Mr. Davies.

His condition could be the result of working for a pizza company.

If you don't back off, profit Stair might give you a false prediction.

Okay, as it turns out, Soundtracker *IS* different from Noiseblocker
and ANL.

The Cobra 29 has all 3.

I guess I'll try to find a radio with NB and see if it can reduce the
fuel pump noise.

This was a new on-line ad placed in Philadelphia Inquirer and
Philadelphia Daily News on www.philly.com (see full text below)
It was about the secret aerosols rooms in US. One could find it by
searching "secret", say, in the ad section of philly.com.

Democracy can not function effectively without the informed public. As
a former NASA Langley scientist working in the area of nanotechnology
and nanoscale particles, I have been recently exposed to the
establishment of secret gas-aerosol rooms inside of United States, at
least in the Mid-Atlantic region (from Philadelphia to Virginia).
First, the highly irritant aerosols have surfaced at the NASA Langley
Research Center in several safety accidents. Investigations were
blocked, probably, because of lack of Congressional approval for such
financially-lucrative research at NASA. Later, these aerosols had been
encountered outside of NASA in Virginia, Delaware and Pennsylvania
.

This points out to yet another proliferation of originally-sensitive technologies into domestic American life to hurt and harass people without a proper oversight and much control. This amounts to torture, extra-judicial prosecution and authoritarian intimidation tactics. The use of such irritants and the operations of the secret gas-aerosol rooms are gross violations of human and constitutional rights of American citizens and various domestic and international laws.

------------------Full text of an ad from Philadelphia's philly.com--------------------------
TORTURE IN USA: Secret Aerosol Rooms
US Scientist needs legal help dealing with the secret aerosols rooms (SARs) operated illegally in Philadelphia area, Newark (DE), Hampton and Williamsburg (VA). Highly volatile aerosols with and without bacterial content cause dry cough, airways and eyes irritation, chest pain and inflammation. FBI and Homeland Security associates are likely operators of SARs, while collaborators may be hotel staff and landlords, who get financial/material or other incentives. US citizens and kids are victims.

AMERICA IN DANGER!

America in danger -
The vice is NOT impeached.
America in danger -
The public trust is breached.

Big Brother spins protection...

The site is UK based but connecting, tuning the antenna, using the CB and most other information will be the same for any country. Legal information depends upon country.

Job 1

Listen to this passage

Job 1
Prologue
1 In the land of Uz there lived a man whose name was Job. This man was
blameless and upright; he feared God and shunned evil. 2 He had seven
sons and three daughters, 3 and he owned seven thousand sheep, three
thousand camels, five hundred yoke of oxen and five hundred donkeys,
and had a large number of servants. He was the greatest man among all
the people of the East.

4 His sons used to take turns holding feasts in their homes, and they
would invite their three sisters to eat and drink with them. 5 When a
period of feasting had run its course, Job would send and have them
purified. Early in the morning he would sacrifice a burnt offering for
each of them, thinking, "Perhaps my children have sinned and cursed God
in their hearts." This was Job's regular custom.
Job's First Test
6 One day the angels [a] came to present themselves before the LORD,
and Satan [b] also came with them. 7 The LORD said to Satan, "Where
have you come from?"
Satan answered the LORD, "From roaming through the earth and
going back and forth in it."

8 Then the LORD said to Satan, "Have you considered my servant Job?
There is no one on earth like him; he is blameless and upright, a man
who fears God and shuns evil."

9 "Does Job fear God for nothing?" Satan replied. 10 "Have you not put
a hedge around him and his household and everything he has? You have
blessed the work of his hands, so that his flocks and herds are spread
throughout the land. 11 But stretch out your hand and strike everything
he has, and he will surely curse you to your face."

12 The LORD said to Satan, "Very well, then, everything he has is in
your hands, but on the man himself do not lay a finger."
Then Satan went out from the presence of the LORD.

13 One day when Job's sons and daughters were feasting and drinking
wine at the oldest brother's house, 14 a messenger came to Job and
said, "The oxen were plowing and the donkeys were grazing nearby, 15
and the Sabeans attacked and carried them off. They put the servants to
the sword, and I am the only one who has escaped to tell you!"

16 While he was still speaking, another messenger came and said, "The
fire of God fell from the sky and burned up the sheep and the servants,
and I am the only one who has escaped to tell you!"

17 While he was still speaking, another messenger came and said, "The
Chaldeans formed three raiding parties and swept down on your camels
and carried them off. They put the servants to the sword, and I am the
only one who has escaped to tell you!"

18 While he was still speaking, yet another messenger came and said,
"Your sons and daughters were feasting and drinking wine at the oldest
brother's house, 19 when suddenly a mighty wind swept in from the
desert and struck the four corners of the house. It collapsed on them
and they are dead, and I am the only one who has escaped to tell you!"

20 At this, Job got up and tore his robe and shaved his head. Then he
fell to the ground in worship 21 and said:
"Naked I came from my mother's womb,
and naked I will depart. [c]
The LORD gave and the LORD has taken away;
may the name of the LORD be praised."

22 In all this, Job did not sin by charging God with wrongdoing.

Job 1

Listen to this passage

Job 1
Prologue
1 In the land of Uz there lived a man whose name was Job. This man was
blameless and upright; he feared God and shunned evil. 2 He had seven
sons and three daughters, 3 and he owned seven thousand sheep, three
thousand camels, five hundred yoke of oxen and five hundred donkeys,
and had a large number of servants. He was the greatest man among all
the people of the East.

4 His sons used to take turns holding feasts in their homes, and they
would invite their three sisters to eat and drink with them. 5 When a
period of feasting had run its course, Job would send and have them
purified. Early in the morning he would sacrifice a burnt offering for
each of them, thinking, "Perhaps my children have sinned and cursed God
in their hearts." This was Job's regular custom.
Job's First Test
6 One day the angels [a] came to present themselves before the LORD,
and Satan [b] also came with them. 7 The LORD said to Satan, "Where
have you come from?"
Satan answered the LORD, "From roaming through the earth and
going back and forth in it."

8 Then the LORD said to Satan, "Have you considered my servant Job?
There is no one on earth like him; he is blameless and upright, a man
who fears God and shuns evil."

9 "Does Job fear God for nothing?" Satan replied. 10 "Have you not put
a hedge around him and his household and everything he has? You have
blessed the work of his hands, so that his flocks and herds are spread
throughout the land. 11 But stretch out your hand and strike everything
he has, and he will surely curse you to your face."

12 The LORD said to Satan, "Very well, then, everything he has is in
your hands, but on the man himself do not lay a finger."
Then Satan went out from the presence of the LORD.

13 One day when Job's sons and daughters were feasting and drinking
wine at the oldest brother's house, 14 a messenger came to Job and
said, "The oxen were plowing and the donkeys were grazing nearby, 15
and the Sabeans attacked and carried them off. They put the servants to
the sword, and I am the only one who has escaped to tell you!"

16 While he was still speaking, another messenger came and said, "The
fire of God fell from the sky and burned up the sheep and the servants,
and I am the only one who has escaped to tell you!"

17 While he was still speaking, another messenger came and said, "The
Chaldeans formed three raiding parties and swept down on your camels
and carried them off. They put the servants to the sword, and I am the
only one who has escaped to tell you!"

18 While he was still speaking, yet another messenger came and said,
"Your sons and daughters were feasting and drinking wine at the oldest
brother's house, 19 when suddenly a mighty wind swept in from the
desert and struck the four corners of the house. It collapsed on them
and they are dead, and I am the only one who has escaped to tell you!"

20 At this, Job got up and tore his robe and shaved his head. Then he
fell to the ground in worship 21 and said:
"Naked I came from my mother's womb,
and naked I will depart. [c]
The LORD gave and the LORD has taken away;
may the name of the LORD be praised."

22 In all this, Job did not sin by charging God with wrongdoing.

Sexual Immorality
12"Everything is permissible for me"-but not everything is
beneficial. "Everything is permissible for me"-but I will not be
mastered by anything. 13"Food for the stomach and the stomach for
food"-but God will destroy them both. The body is not meant for
sexual immorality, but for the Lord, and the Lord for the body. 14By
his power God raised the Lord from the dead, and he will raise us also.
15Do you not know that your bodies are members of Christ himself? Shall
I then take the members of Christ and unite them with a prostitute?
Never! 16Do you not know that he who unites himself with a prostitute
is one with her in body? For it is said, "The two will become one
flesh."[b] 17But he who unites himself with the Lord is one with him in
spirit.

18Flee from sexual immorality. All other sins a man commits are
outside his body, but he who sins sexually sins against his own body.
19Do you not know that your body is a temple of the Holy Spirit, who is
in you, whom you have received from God? You are not your own; 20you
were bought at a price. Therefore honor God with your body.

SODOMY IS AN ABOMINABLE SIN, WORTHY OF DEATH.
"If a man also lie with mankind, as he lieth with a woman, both of them have committed an abomination: they shall surely be put to death; their blood shall be upon them." Leviticus 20:13. THE SODOMITES' ONLY HOPE IS TO HAVE THE UNAMBIGUOUS TRUTH PREACHED TO THEM, AND PERHAPS GOD WILL SOFTEN THEIR HEARTS AND GRANT THEM REPENTANCE TO DEPART FROM THEIR SIN AND NAME THE NAME OF CHRIST. NOT

VERY LIKELY, THOUGH, SINCE GOD HAS GIVEN THEM UP.
"Nevertheless the foundation of God standeth sure, having this seal, The Lord knoweth them that are his. And, Let every one that nameth the name of Christ depart from iniquity." II Timothy 2:19. "And they shall go forth, and look upon the carcasses of the men that have transgressed against me: for their worm shall not die, neither shall their fire be quenched; and they shall be an abhorring unto all flesh." Isaiah 66:24. "For without are dogs..." Revelation 22:15.
See also Mark 9:44, Luke 16:23, Revelation 20:15.
In summary, sodomites are wicked and sinners before the Lord exceedingly (Gen. 13:13), are violent and doom nations (Gen. 19:1-25; Jgs. 19), are abominable to God (Lev. 18:22), are worthy of death for their vile, depraved, unnatural sex practices (Lev. 20:13; Rom. 1:32), are called dogs because they are filthy, impudent and libidinous (Deut. 23:17,18; Mat. 7:6; Phil. 3:2), produce by their very presence in society a kind of mass intoxication from their wine made from grapes of gall from the vine of Sodom and the fields of Gomorrah which poisons society's mores with the poison of dragons and the cruel venom of asps (Deut. 32:32,33), declare their sin and shame on their countenance (Isa. 3:9), are shameless and unable to blush (Jer. 6:15), are workers of iniquity and hated by God (Psa. 5:5), are liars and murderers (Jn. 8:44), are filthy and lawless (2 Pet. 2:7,8), are natural brute beasts (2 Pet. 2:12), are dogs eating their own vomit and sows wallowing in their own feces (2 Pet. 2:22), will proliferate at the end of the world bringing final judgment on mankind (Lk. 17:28-30), have been finally given up by God to uncleanness dishonoring their own bodies among themselves, to vile affections, and to a reprobate mind such that they cannot think straight about anything (Rom. 1:23-28), have wholly given themselves over to fornication and gone after strange flesh (Jude 7), must be pulled as faggots from the fire (Jude 23), and have no hope of Heaven unless they repent (Rev. 22:15), which they can't do in their prideful state (Jer. 6:15). They need to hear this truth if they are to have any hope of penitence, faith in Jesus Christ and salvation (I Timothy 4:2-4).

"Were they ashamed when they had committed abomination? nay, they were not at all ashamed, neither could they blush: therefore they shall fall among them that fall: at the time that I visit them they shall be cast down, saith the LORD." Jeremiah 6:15.
See also Jeremiah 13:23, Romans 1:24-32, Ezekiel 16:49-50, etc.
THE SODOMITES' ONLY HOPE IS TO HAVE THE UNAMBIGUOUS TRUTH PREACHED TO THEM, AND PERHAPS GOD WILL SOFTEN THEIR HEARTS AND GRANT THEM REPENTANCE TO DEPART FROM THEIR SIN AND NAME THE NAME OF CHRIST. NOT VERY LIKELY, THOUGH, SINCE GOD HAS GIVEN THEM UP.

"Nevertheless the foundation of God standeth sure, having this seal, The Lord knoweth them that are his. And, Let every one that nameth the name of Christ depart from iniquity." II Timothy 2:19. "Wherefore God also gave them up to uncleanness...unto vile affections...to a reprobate mind." Romans 1:24-28.
See also II Timothy 2:24-26, Psalm 5:5, I Corinthians 6:9-11, Acts 17:30, Jude 22,23, etc.
THERE IS A HELL WHERE ALL IMPENITENT SINNERS WILL RESIDE FOR ALL ETERNITY. THAT INCLUDES SODOMITES (CALLED "DOGS").
"And they shall go forth, and look upon the carcasses of the men that have transgressed against me: for their worm shall not die, neither shall their fire be quenched; and they shall be an abhorring unto all flesh." Isaiah 66:24. "For without are dogs..." Revelation 22:15.
See also Mark 9:44, Luke 16:23, Revelation 20:15.
In summary, sodomites are wicked and sinners before the Lord exceedingly (Gen. 13:13), are violent and doom nations (Gen. 19:1-25; Jgs. 19), are abominable to God (Lev. 18:22), are worthy of death for their vile, depraved, unnatural sex practices (Lev. 20:13; Rom. 1:32), are called dogs because they are filthy, impudent and libidinous (Deut. 23:17,18; Mat. 7:6; Phil. 3:2), produce by their very presence in society a kind of mass intoxication from their wine made from grapes of gall from the vine of Sodom and the fields of Gomorrah which poisons society's mores with the poison of dragons and the cruel venom of asps (Deut. 32:32,33), declare their sin and shame on their countenance (Isa. 3:9), are shameless and unable to blush (Jer. 6:15), are workers of iniquity and hated by God (Psa. 5:5), are liars and murderers (Jn. 8:44), are filthy and lawless (2 Pet. 2:7,8), are natural brute beasts (2 Pet. 2:12), are dogs eating their own vomit and sows wallowing in their own feces (2 Pet. 2:22), will proliferate at the end of the world bringing final judgment on mankind (Lk. 17:28-30), have been finally given up by God to uncleanness dishonoring their own bodies among themselves, to vile affections, and to a reprobate mind such that they cannot think straight about anything (Rom. 1:23-28), have wholly given themselves over to fornication and gone after strange flesh (Jude 7), must be pulled as faggots from the fire (Jude 23), and have no hope of Heaven unless they repent (Rev. 22:15), which they can't do in their prideful state (Jer. 6:15). They need to hear this truth if they are to have any hope of penitence, faith in Jesus Christ and salvation (I Timothy 4:2-4).

Day 227 of Mark crying...
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
"Maj Steven J Robeson of the CAP has enaged in a multi effort at libbel and
fraud."
WAH! WAH! WAH!

So, let's re-cap Mark's wonderful life, shall we:

1) He was drafted into the US Army.
2) He is a member of the Chemical Corps.
3) The military won't let him retire.
4) He doesn't serve under the name 'Mark Morgan', but that's okay, 'cuz
the FBI, DOD, and CIA have all told him he can do it.
5) He is on-the-lam from stalking former marines and fatal attraction
ex-wives
6) He was, until recently, paying $5/hr. to access his ISP
7) He has a 248 IQ, but can't figure out how to use a spell checker.
8) He is a bi-sexual 33 yr. old Pagan male ham who likes to be spanked.

9) He can't find any action on the military base in Central IL, so he
has to ask people on USENET.

1848. Noiseblocker vs Fuel Pump Results

So my results with a Cobra 75 with just soundtracker had negligible results versus my fuel pump noise. So I went and bought a Cobra 29 with ANL, Noiseblocker and SoundTracker. With a base noise of S0 and S3 when I start my truck, with ANL, Noiseblocker and ST turned on, the noise dropped from S3 to S2. Although the volume of even voices sounds a little muted, so the signal to noise ratio was improved a little, but not completely.

Previously, I had blower motor noise from my AC, which went away when I bolted an antenna mount onto my fender (When I was using the Midland 1001, Uniden 510, Cobra 75). However with the Cobra 29, the noise came back. All the radios have used the same antenna mount and wiring (straight to the battery, also have tried the bare metal where my transmission shifter comes up from the floor, i'm able to use this for a DC ground).

I tied of a wire to bare metal (confirmed it's a DC ground) and touched all of the screws on the radio, no change. If I touched it to the faceplate for some reason it sometimes changes the noise a little bit sometimes, but not much. I've also touched this wire to the ground on the antenna cable, and also tried grounding the antenna mount again. No change.

Interesting to note that although the S meter drops with NB on, the squelch setting seems to want to be in the same spot.

Also interesting to note, my portable shortwave radio which can do CB frequencies, does NOT pick up the blower motor or the fan noise however it DOES pick up the spark plug noise.

RF or not RF.!?!?!

I did check my fuel tank, and it is metal (I thought it was plastic). I wonder if this can made to act like a faraday cage? I work in a wireless labratory with UHF (2.4ghz, unfortunately nobody else is really radio savvy, especially with HF), and we have rooms made out of copper screen that is electrified (i believe), and no RF comes in or out. Of course all the powerlines also need to be filtered.

Although I guess if the noise is coming out from the wires, it won't make any difference.

I'm going to probably return this Cobra and get the Midland 1001Z again.

Try putting a quality inline noise filter on your fuel pump wires. The ANL/NB are not designed to take that type of noise out of your signal. I can't tell you about the sound tracker as I've never owned one with that feature.

Are you positive you have identified all systems that are causing the interference? Something is wrong if you are getting noises from more than one source. Ground the back of the radio to the closest place to the radio as possible, take the wires off the battery and put the positive on the ACC or radio circuit, and the negative to the same place as the ground on the back. Make sure that you have the antenna mount bolted to a ground. Use a quality inline filter for the radio. Put one on your blower motor also. What kind of vehicle is this so I never buy one?

Grounding the faceplate should have no effect.

Get resistor type plugs and high suppression wires.

It's RF interference.

Unless you place your antenna in the fuel tank the faraday cage theory is a
non factor.

It's obvious that changing radios has not solved the problem thus far so why
waste your time.
Let's recap:
Power wire to ACC or radio in the fuse box.
Negative to the closest spot you can find to the unit and also ground case
to same.
Quality inline noise filter.
Antenna mount grounded.
Get an antenna with an anti static ball on the tip.
Resistor type plugs and high suppression wires.
Identify all sources of interference. Turn the vehicle to the on position
but don't start it. If any noise occurs start pulling fuses till it stops.
Put an inline filter on that circuit. Start vehicle and do the same thing.
If it still continues, sell the car or get a new hobby.

SODOMY IS AN ABOMINABLE SIN, WORTHY OF DEATH.
"If a man also lie with mankind, as he lieth with a woman, both of them have committed an abomination: they shall surely be put to death; their blood shall be upon them." Leviticus 20:13. "Who knowing the judgment of God, that they which commit such things are worthy of death, not only do the same, but have pleasure in them that do them." Romans 1:32.

See also Leviticus 18:22, Genesis 19, Romans 1:18-32, I Corinthians 6:9-11, I Timothy 1:10, and Jude 7.
GOD HATES ALL WORKERS OF INIQUITY.
"The foolish shall not stand in thy sight, thou hatest all workers of iniquity." Psalm 5:5.
See also Leviticus 20:23, Leviticus 26:30, Deuteronomy 32:19, Psalm 5:6, Psalm 11:5, Malachi 1:3, Matthew 7:23, and Romans 9:13.
JESUS CHRIST DIED ONLY FOR THOSE WHO BELIEVE.
"For God so loved the world that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life." John 3:16.
See also John 13:1, John 17:9, Ephesians 5:25, etc.
ONLY GOD'S ELECT HAVE THE CAPABILITY TO BELIEVE.
"Therefore they could not believe, because that Esaias said again, He hath blinded their eyes, and hardened their heart; that they should not see with their eyes, nor understand with their heart, and be converted, and I should heal them." John 12:39,40.
See also John 10:11,26, Matthew 11:25,26, Acts 13:48, Romans 9:19-24, etc.
SODOMITES ARE PROUD OF THEIR SIN ("GAY PRIDE"), AND IN THAT PRIDEFUL STATE THEY CANNOT REPENT - YOU CANNOT REPENT OF SOMETHING YOU'RE PROUD OF.
"Were they ashamed when they had committed abomination? nay, they were not at all ashamed, neither could they blush: therefore they shall fall among them that fall: at the time that I visit them they shall be cast down, saith the LORD." Jeremiah 6:15.
See also Jeremiah 13:23, Romans 1:24-32, Ezekiel 16:49-50, etc.
THE SODOMITES' ONLY HOPE IS TO HAVE THE UNAMBIGUOUS TRUTH PREACHED TO THEM, AND PERHAPS GOD WILL SOFTEN THEIR HEARTS AND GRANT THEM REPENTANCE TO DEPART FROM THEIR SIN AND NAME THE NAME OF CHRIST. NOT VERY LIKELY, THOUGH, SINCE GOD HAS GIVEN THEM UP.
"Nevertheless the foundation of God standeth sure, having this seal, The Lord knoweth them that are his. And, Let every one that nameth the name of Christ depart from iniquity." II Timothy 2:19. "Wherefore God also gave them up to uncleanness...unto vile affections...to a reprobate mind." Romans 1:24-28.

See also II Timothy 2:24-26, Psalm 5:5, I Corinthians 6:9-11, Acts 17:30, Jude 22,23, etc.
THERE IS A HELL WHERE ALL IMPENITENT SINNERS WILL RESIDE FOR ALL ETERNITY. THAT INCLUDES SODOMITES (CALLED "DOGS").
"And they shall go forth, and look upon the carcasses of the men that have transgressed against me: for their worm shall not die, neither shall their fire be quenched; and they shall be an abhorring unto all flesh." Isaiah 66:24. "For without are dogs..." Revelation 22:15.
See also Mark 9:44, Luke 16:23, Revelation 20:15.
In summary, sodomites are wicked and sinners before the Lord exceedingly (Gen. 13:13), are violent and doom nations (Gen. 19:1-25; Jgs. 19), are abominable to God (Lev. 18:22), are worthy of death for their vile, depraved, unnatural sex practices (Lev. 20:13; Rom. 1:32), are called dogs because they are filthy, impudent and libidinous (Deut. 23:17,18; Mat. 7:6; Phil. 3:2), produce by their very presence in society a kind of mass intoxication from their wine made from grapes of gall from the vine of Sodom and the fields of Gomorrah which poisons society's mores with the poison of dragons and the cruel venom of asps (Deut. 32:32,33), declare their sin and shame on their countenance (Isa. 3:9), are shameless and unable to blush (Jer. 6:15), are workers of iniquity and hated by God (Psa. 5:5), are liars and murderers (Jn. 8:44), are filthy and lawless (2 Pet. 2:7,8), are natural brute beasts (2 Pet. 2:12), are dogs eating their own vomit and sows wallowing in their own feces (2 Pet. 2:22), will proliferate at the end of the world bringing final judgment on mankind (Lk. 17:28-30), have been finally given up by God to uncleanness dishonoring their own bodies among themselves, to vile affections, and to a reprobate mind such that they cannot think straight about anything (Rom. 1:23-28), have wholly given themselves over to fornication and gone after strange flesh (Jude 7), must be pulled as faggots from the fire (Jude 23), and have no hope of Heaven unless they repent (Rev. 22:15), which they can't do in their prideful state (Jer. 6:15). They need to hear this truth if they are to have any hope of penitence, faith in Jesus Christ and salvation (I Timothy 4:2-4).

"And they shall go forth, and look upon the carcasses of the men that have transgressed against me: for their worm shall not die, neither shall their fire be quenched; and they shall be an abhorring unto all flesh." Isaiah 66:24. "For without are dogs..." Revelation 22:15.
See also Mark 9:44, Luke 16:23, Revelation 20:15.
In summary, sodomites are wicked and sinners before the Lord exceedingly (Gen. 13:13), are violent and doom nations (Gen. 19:1-25; Jgs. 19), are abominable to God (Lev. 18:22), are worthy of death for their vile, depraved, unnatural sex practices (Lev. 20:13; Rom. 1:32), are called dogs because they are filthy, impudent and libidinous (Deut. 23:17,18; Mat. 7:6; Phil. 3:2), produce by their very presence in society a kind of mass intoxication from their wine made from grapes of gall from the vine of Sodom and the fields of Gomorrah which poisons society's mores with the poison of dragons and the cruel venom of asps (Deut. 32:32,33), declare their sin and shame on their countenance (Isa. 3:9), are shameless and unable to blush (Jer. 6:15), are workers of iniquity and hated by God (Psa. 5:5), are liars and murderers (Jn. 8:44), are filthy and lawless (2 Pet. 2:7,8), are natural brute beasts (2 Pet. 2:12), are dogs eating their own vomit and sows wallowing in their own feces (2 Pet. 2:22), will proliferate at the end of the world bringing final judgment on mankind (Lk. 17:28-30), have been finally given up by God to uncleanness dishonoring their own bodies among themselves, to vile affections, and to a reprobate mind such that they cannot think straight about anything (Rom. 1:23-28), have wholly given themselves over to fornication and gone after strange flesh (Jude 7), must be pulled as faggots from the fire (Jude 23), and have no hope of Heaven unless they repent (Rev. 22:15), which they can't do in their prideful state (Jer. 6:15). They need to hear this truth if they are to have any hope of penitence, faith in Jesus Christ and salvation (I Timothy 4:2-4).

Why do you do it, hypocrite? You've done it for years about others who disagree with your perverted lifestyle.

> since the reference is to her father you can call her father you can't

That's not what you said, though. We were talking about your shemale wife and you said:
Marky confirms he married a shemale in <1154036039.815804.294820@p79g2000cwp.googlegroups.com>:

After a discussion about your shemale wife.

> distorting context ins not aan admission claiming that is an admission

But nobody distorted it, you are the one who posted it after a comment
on your shemale wife. You have just admitted you lied again, hypocrite.

It's a good thing Morkie hasn't got any close neighbors, but nobody
wants to be around him.

Hello SpakySKO:

You are experiencing noise problems a lot of guys have. Some just live with it, and some try to cure it.

With a properly installed radio system, and good radio with a Noise Blanker the noise should be at a livable level.

EMI (Electromagnetic Interference) is being experienced more and more with new electronic devices.

In order for EMI to exist there must be three things, A noise generator, a path, and a receiver.

Most of the times it best to reduce or attenuate the noise at the source or noise generator. Or then break the path, then filter out the noise at the receiver. In that order. But thats not always possible or particle.

I had a 1989 Nissan truck that everything caused noise in my radios. A fuel filter in the power wires at the gas tank helped some. Shielding the ignition wires also helped. But nothing I did was the total answer that got rid of all the noise. Connecting the fender battery ground to the fire wall and hood was also a help in reducing the ignition noise.

Everything I did helped reduce the noises a little but again nothing was the total fix to remove the noises.

The muffler pipe was grounded about 12 inches away from the exhaust manifold, the radios had a direct connection to the battery, both positive and negative. Not having the radio ground wire going straight to the battery is asking for noise troubles.

But the greatest help was a Heil DSP (Digital Signal Processor) Speaker that reduced the noises significantly. I could here the local big base stations all most 50 miles away.

You will hear more noises with the poor skip conditions, as compared to the good skip conditions, when all the big boys are out there on the channel.

Also remember that the low end radios don't have all the neat-o noise reduction circuits in them. Comes down to if ya want to play ya got to pay.

Here is a book written on EMI or RFI:
http://www.arrl.org/catalog/6834/

Hope this helps.

Marqueer's Message From Hell
"Then he said, I pray thee therefore, father, that thou wouldest send him to my father's house: For I have five brethren; that he may testify unto them, lest they come into this place of torment. Abraham saith unto him, They have Moses and the prophets; let them hear them. And he said, Nay, father Abraham: but if one went unto them from the dead, they will repent. And he said unto him, If they hear not Moses and the prophets, neither will they be persuaded, though one rose from the dead." Luke 16:27-31. Listen to Moses and the prophets:
"Thou shalt not lie with mankind, as with womankind: it is abomination." Leviticus 18:22.

"Hell from beneath is moved for thee to meet thee at thy coming...the worm is spread under thee, and the worms cover thee." Isaiah 14:9-11.

"The same shall drink of the wine of the wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb; And the smoke of their torment ascendeth forever and ever; and they have no rest day or night." Revelation 14:10,11.

Marqueer's Message From Hell
"Then he said, I pray thee therefore, father, that thou wouldest send him to my father's house: For I have five brethren; that he may testify unto them, lest they come into this place of torment. Abraham saith unto him, They have Moses and the prophets; let them hear them. And he said, Nay, father Abraham: but if one went unto them from the dead, they will repent. And he said unto him, If they hear not Moses and the prophets, neither will they be persuaded, though one rose from the dead." Luke 16:27-31. Listen to Moses and the prophets:
"Thou shalt not lie with mankind, as with womankind: it is abomination." Leviticus 18:22.

"Hell from beneath is moved for thee to meet thee at thy coming...the worm is spread under thee, and the worms cover thee." Isaiah 14:9-11.

"The same shall drink of the wine of the wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb; And the smoke of their torment ascendeth forever and ever; and they have no rest day or night." Revelation 14:10,11.

sorry to be the one-sit down and take a breathe and be the one
intelligent not gay or anything.i break the news.IN NO WAY THERE ARE
ANY SIN. i will cast a light .take it piano,be the seeker you onced
realized the miracle within.And this life are no competition,no race.
thats man made, still in effect, future embarrasment.like a pee- stain
on the darn photo mum always do her guilt dance for with or something
similair.

HOWEVER
we are in no way at the same place.not mentaly,not physical,and -we are
surtenly not at the same location Dooh.a man in Nevada would rarely
combat a 18y old in Uddevalla over a glas of water! right!? like a hill
with a trea are same trea same hill,it cant be decided if its the same
in the north or in east.But whats known is,we are not at the same
place.the tempted by bond to this world invent sin to rule out it.A
rule is-as always-a limit and as such open for free attention.
It is a good thing,to know the rule.BUT dont you know everything are
reflexive in so many ways.its like in US someware they forced covers on
statues.there you have a pair of genitila more vivid under the cloth
than ever.And this with the children.
All children knows mummys got boobies.that is fundamental.instead you
get thought prison with no doors or a false alarming over 345 items any
day.But since the hill is not to be realized or seen from all ways at
one time -a second.
--Same with the ruling.
cause a man with no desire for cheeseporn with hammer-death or to be a
mean stuck up ass are in any risk to be that at all or suddenly.

And mean is only closing things.no wisdom can be in the same room
beside the surfaces.
and sin is -if anything- to pass judgement over any living being.
but its not a sin its a crime.you may be at the bible word junction,but
i done the reading. and guess! there are many sides to this hill.and it
is created that way.
creation is still running by the way,any kid watching a duckling hatch
can sign that.
hope i reached some part of the ruling judge head.

Ignorance is bliss, which explains Wiseman's posts.
Stupidity, however, has no solution which explains Mark's posts.

by Rabbi Eliyahu Stern

Tisha b'Av (the 9th of the month of Av), the day Jews mourn the loss of the Temple and their subsequent exile, is one of those holidays that never made too much sense growing up. Let me explain by recounting a story told to me by my teacher Rabbi David Hartman. Following the Six Day War, Hartman, who was a rabbi in Montreal, was commemorating Tisha b'Av with his congregation. He had just been in Israel celebrating its glorious victory. As he looked out into his congregation he became increasingly disturbed. Shaking his head and saying to himself, "What are they mourning for? We have returned! We have returned to our homeland." Hartman got up from his seat, walked over to the podium, and asked for his congregation's attention. They were sitting on the floor saying over lamentations, but they looked up from their prayer books and gave their ears to their spiritual leader. Looking at them in shock and disbelief Hartman exclaimed, "I want you all to know that the Jewish people are singing and dancing in the streets of Jerusalem while you are sitting here and crying." He then went back to his seat and the bewildered congregation went back to mourning.

In recent years, Hartman's enthusiasm has become tempered by the reality that we have not been fully redeemed and maybe we are still in a state of mourning. The tumultuous events of the past few weeks in Gaza and Lebanon remind us just how important that reality check is.

It's a shame, but this year we all have so much to be mourning about.

Hartman got up from his seat, walked over to the podium, and asked for his congregation's attention. They were sitting on the floor saying over lamentations, but they looked up from their prayer books and gave their ears to their spiritual leader. Looking at them in shock and disbelief Hartman exclaimed, "I want you all to know that the Jewish people are singing and dancing in the streets of Jerusalem while you are sitting here and crying." He then went back to his seat and the bewildered congregation went back to mourning.

In recent years, Hartman's enthusiasm has become tempered by the reality that we have not been fully redeemed and maybe we are still in a state of mourning. The tumultuous events of the past few weeks in Gaza and Lebanon remind us just how important that reality check is. It's a shame, but this year we all have so much to be mourning about.

Nobody cares. Why don't you just get married in a state that accepts
gay marriage and be done with it? Gay or not, quit crapping on the
newsgroups.

It's getting very old and nobody cares.

It is "tenets", Dufus. As in doctrine or theory.

Tenants are persons who occupy the property of another.

> You can't fix that.

The bottom line, Mark, despite your weak-kneed responses, is that you are an intellectual midget. Between you and mental misfit Wiseman, the two of you have managed to turn this news group into a virtual cesspool. Your half-assed responses that you are merely defending your "honor" are but more of your ongoing charade. You've been spamming Usenet since at least 1998. You have no honor. You certainly have no pride.
You, like Wiseman, apparently have little to nothing going for you. I think that I can safely speak for all of this newsgroup when I say that you are a pure, unadulterated idiot, Mark. You make your unwelcome presence known for just about any post so presented, whether or not your comments were asked for. You even attempted to ingratiate yourself with Paul in hopes that if Paul responded to you it would lend you credibility. By his non-response you were summarily rebuffed and ignored. Apparently Paul considers you to be a mental inferior unworthy of his attention, and rightfully so. He shut you off, didn't he? So, Mark, after being ignored by Paul, you had to seek your own intellectual level...that being Roger Wiseman.
Disdain, Mark, look it up. That is how many of us view you. I will take it one step further. I pity you. You sit on your overweight haunches day in, day out with no life save for Usenet. I feel sorry for you, Mark. I hesitate to quantify anybody as a loser, but if I had to pick an example, you would be it.
Simply put? You are an idiot, Mark. A bean-brained, grossly overweight nonentity. Nothing more, nothing less.

Do you have a will?

Do you have family to care for, an insurance policy?

How many were in your group?

This is my job, this is what I do.

You have to prove to me you should be murdered, and by god, your group did.

Keep it real, it will happen no matter what you think you can troll.

No amount of jello will save your life.

I asked you people, I begger you , to stop for 3 years. It is too late now.

No amount of anal rape will help you , and in fact, it is because you anally rape, you get murdered.

See how dumb you are?

You are a stalker Landshark, you stalked several NG users most notably
george, you posted persoanl info, tax records of his home, next of kin.,
wifes business. Why because he brought to light yuour transexaul escapades.

Be careful with this guy he is a known stalker, and transexual lover.

That might have meant something if you were to have identified who you were in that post. But after seeing Comcast in your header I know why you are attempting to hide who you are. Your accusation is as phony as you are.

==>MASSIVE CUBESAT LAUNCH FAILS

A much-heralded attempt to launch 15 CubeSats built by 11 universities and
one private company failed this week. Fourteen of the tiny spacecraft
carried Amateur Radio transmit-only payloads.

The Dnepr-1LV rocket lifted off from Russia's Baikonur Cosmodrome in
Kazakhstan at 1943 UTC on July 26. Various accounts indicate that the
mission went awry less than two minutes after liftoff when the first stage
failed to separate on time, causing an emergency shutdown of the rocket's
main engine. Reports vary on how far downrange -- and just where -- the
vehicle fell. One said the Dnepr dropped to Earth some 15 km from the launch
site, while another put the distance at 190 km. A third account said the
Dnepr dropped into the Indian Ocean.

Originally set for June 28, the launch had been postponed until July 26. The
CubeSat project was a collaboration between California Polytechnic State
University-San Luis Obispo and Stanford University's Space Systems
Development Laboratory. All of the CubeSats were designed and built by
students at various universities in the US and elsewhere in the world. The
CubeSat roster included AeroCube-1, CP-1, CP-2, ICE Cube-1, ICE Cube-2, ION,
HAUSAT-1, KUTESat, MEROPE, nCube-1, RINCON, SACRED, SEEDS, PiCPoT and
Voyager.

Thirteen of the satellites were to have downlinks in the Amateur Radio
satellite allocation between 435 and 438 MHz, and one was to operate on
145.980 MHz. None of the spacecraft carried a transponder. Transmitter power
outputs ranged from 10 mW to 2 W.

The Dnepr was the second to launch this month from Baikonur's Area 109.
Other payloads included BelKA, the first Belarusian satellite, and three
other microsatellites. According to Satellite Launch Report, the original
Dnepr launcher was replaced by a different one in June after a problem

was
detected in the original vehicle's digital flight control system.

The Dnepr launch failure was said to be the first in seven orbital
launch
attempts. The Dnepr vehicle is a repurposed SS-18 "Satan" three-stage
intercontinental ballistic missile, originally designed in the 1980s to
compete with the US Peacekeeper missile. The START 2 treaty allowed up
to
150 of the missiles to be converted for use as space launchers.

The Russian space agency has convened a special commission to look into
the
cause of the malfunction.

: I would disagree, people filled with hate or pervy intentions hide
behind a religion.
: Calling somthing a religion or using the name of a well established
religion can
: provide a certain level of protection.
: Those in the religion will see the person as "one of their own" and
refuse either to see
: them for what they are, risk the reputation of the religion or turn on
"one of their own" by
: allowing them to be caught.
:
: Religion is not the cause, it is one shield that some scumbags hide
behind. Others hide
: behind reputable professions, such as police or government positions.
But that does
: not make those professions the cause, simply a hiding place.
: How much more protection can you get than being within a government,
who can put

ass.

: Not as gullible as than the idiots who believed it, sitting around and
waiting for the World to
: end on a certain date. Considering that those in the religion are

worked at over a long period
: of time, but other people simply see messages and believe them.
:
: How about that con man who had people believing he was a spy, sent to protect them. Some
: people are more susceptible to suggestion and NLP than others, but I believe that most can be
: had with enough time and effort.
:
: Or, what about the story of WMDs and links to terrorists that a war was based on. How

Gentle Readers:

The other day, I heard a rather funny song (rap style) extolling the virtues of the old Johnson Viking transmitters. We're talking about the units from the 1960's that weigh-in about 75lbs. Anyway, I believe the title was, "A Woman Needs a Man with a Great Big Johnson." No, I'm not making-this-up.

If anyone knows of this song or a link thereto; please post so that all of us can have a laugh.

What honor? Markieboy has no honor.
//

This is correct. You are right. Had he any honor, he'd cease spamming Usenet
to the tune of 40 to 50 posts per diem. Had he any honor he'd cease
exchanging taunts with Roger, too. (sewage seeking its own level there)
Unfortunately for the rest of us Mark has no honor, fewer scruples, and zero
common sense. He will most likely continue to burden the groups with his
worn one-liners and unasked for opinions.
You'd think that after being rebuffed, made fun of, and digitally spat upon
that he'd learn something. This is not to be and Mark will continue, sadly,
to provide us with blatantly open displays of his stupidity. Mark is a
classic example of the old saying, "You just can't fix stupid."

That's Geo, ask Steveo about him. He was always posting the same type

some 500 or more screen nics, but he over stepped his TOS, got warned and
started to be more civilized.
Just like we tell markie tard, we ignored him, he pretty much disappeared.

Shows how much he loves me, I don't check this group for a week, some
700 plus posts and finds my one post, shows on how he still some-what
obsessed with me.

Here we go again on the plonking file.....................

Are you so stupid that you have to repost other peoples insults instead of being original? I'm sure if you answer this question it will be with someone else's post.
So Tommy, tell us about Rosebud.

It exists, it is catchy and if you have internet contacts, you can get
your hands on it.
The actual wordage is, "A Woman Loves a Man With a Great Big Johnson".
While you're at it, look into "Bump it Down" by the same artist.
They are pretty good songs.

if you hd any honnor youd understand and stop blaming the victum in a
libel attack but since you have no honnor as is made clear y your
annymouse status you don't get it
.

You have had folks in these groups "attack" you because of your stupid and
incessant spam. You start it, Mark, and then you whine like a petulant
little schoolgirl when somebody you've angered calls you a less than
flattering name. You are not a "victum", Mark. You are the instigator and
you are well aware of that. So are the rest of us.
Your comment that I am "annymouse" and thereby have no "honnor" is
pointless, as are the majority of your posts. I can afford to use Altopia,
can you?
You might learn the advantage of being anonymous after your neighbors
receive a few copies of your posts, as your buddy once threatened to do.
So, Mr. Morgan, I am going to continue being "annymous" while you plod
mindlessly forward and show us how to be the pea-brained idiot that you so
well present yourself to be.

1. It's GOOGLE. I post to TWO groups normally, and I don't want to search to find a provider that carries Usenet (I'm no longer one one of those) nor pay for 140,000 others, 70 percent of which I have little interest, are havens for illegality of many forms or simply full of people playing retarded role games involving calling each other gay or child molester, those infested by people playing persecutory mindgames and spamming. The groups other than ba.broadcast seem to share most of these qualities on top of mindlessness and the implication of a drunken or drugged status, real or not.

1b. ba.broadcast is in it's own existance a funhouse of it's own, and we simply have no requirements to import more fun.

2. Google Groups has absolutely NO PROVISIONS FOR KILLFILING. NONE.

WIDIWYS What I See Is What You Spew.

3. NO MATTER WHAT I SNIP, somebody gets lonely and reinserts it.

4. Google Groups allow responses to FIVE GROUPS ONLY, and then ONLY TO GROUPS GOOGLE ARCHIVES (or allows new or unmoderated posting to).

5. NOBODY IN THE GROUP NORMALLY GIVES YOU TIME OF DAY.

Why you continue to crosspost is perplexing, given that even gay people ignore you.

Even worse, if I redirect the replies to my post to another, usually benign group, you guys reinstate the reply to ba.broadcast. Does this qualify as useless smartass behavior?

6. If you actually had anything to give us other that noise, you would have more people willing to talk to you.

7. All I see are endless, predictable diatribes about gays and child molesters and truckstop bathroom brothels in especially the CB and shortwave groups. If DXAce is such a prick, why do you give him ammo? Is the Vetch switch on ONLY?

I just don't see the Peterbilt orgies at Petro (OR Pilot, T/A etc). You all sound like GULPs (Glorified Urban Legend Poets, not a 7 Eleven soda cup).

I DO know there are a lot of filthy people in my area on CB who ought to get a knee in the groin for the way they talk back to women on the air. Mr. ECHO/REVERB and linear converter from hell knows you I mean.

8. None of you ragchew, you just incessantly JAWBONE. Silent QRM until you're SK (Silent Keys).
.
.
.
So, the matter isn't MY blocking YOU, it's YOU staying away from BA.BROADCAST.

DO you copy?

I see. When it is correctly pointed out to you that your intellectual
superiors consider your blatherings to be a waste of oxygen, you attack the
messenger rather than the facts presented.
Don't try to twist the intent or content of my previous post with the use of
terms such as "smear campaign" or "use of hate". I stated facts, Mark. No
"smear campaign" involved. Your attempt to do so is covered in Debating 101,
and holds no water. You've been watching Hillary Clinton too much. Your
comment about my choice of 666 is laughable. Nice try, Mark, but like the
rest of your post, it is weak. A third grader could do better.

Facts, as they often say, is facts. You have quickly become The Clown of Usenet and have done so all by your lonesome self.
Now, Mark, twist THIS message around to suit your fancy. I guess next up for you will be to accuse me of "libbeling" you by calling you a clown. And, Mark. Describing you as a lonesome clown is a statement of fact. Live with it.

which yardstick are you going to measure or determine this? By the very
simple fact that we post correctly, use good grammar and don't splatter our
posts with misspelled words is example enough.

...
thee are those that consider my efforts a waste. I would conceed that

I repeated nothing. I made a statement based upon my observations. There is
no libel involved.
...

here are some facts

Fact: I set out to stop what has been K4YZ multi year effort to libel
everyone he is seriously oposed to. I have achived that goal.
...
Fact: You "saw" Steve in post after post that were not his. You falsely
accused Steve of making anon posts when he, in fact, did no such thing when
you yourself were accused of the same. How many email addresses and sock
puppets do you need? Steve has one...his REAL name and callsign.

Fact: I decided to resist the effort of many folks to use an accusation

succesfull to date OTOH most posters have come to the point of noting
"so what?" (or words to that effect) in response to such efforts, thus

...
The accusations you refer to were mostly posts made by Wiseman in his
attempt to anger you after your forty to fifty posts per day. Wiseman is no
intellectual giant but you went way past the typical boundaries and even
went so far as to follow Wiseman to the Nim Busters boards where you further

antagonized him. Last I heard, Mark, the Admin banned you from the Nim Boards and to be banned from that group of misfits takes some bit of doing.
....

Fact:in resisting the effort of various folks to label tech and NoCoders as incapple Ham I believe the way such trolls as "slow code" and Al klein quiting the feild have shown that my point is made.
...
This is a moot point. If you were so easily offended by comments aimed toward No-Coders, the problem is yours. Had you any intellect you would have ignored the posts, but you couldn't leave well-enough alone. You just HAD to stick your nose in.
...

Fact: in persuing justice for all (even Wismen as I try to restrain those tat feel the need to enhance his records of sin further) I have prefromed a Mitvah
...
Fact: You are not "persuing" justice for all. You are taking every opportunity to spam, irritate, and inject inane comments where none are due. You have performed nothing other than flooding the newsgroups with one-liners that make little to no sense.
...

The price I have paid for this is what? Making it more obvious (not that it was ever a secert) that I suffer from dyslexia and aphasia which make my words esp with typed with passion (or boredom as is often the case in hauling out Wisemen trash) an adventureto say the least to read. For you I supose this would be mortifing to me it is indeed something I had to get used too by the 3rd or 4th grade
...
That, Mark, is an excuse. There are many of your peers who have overcome what you claim to be an affliction. You could do likewise, were you not so lazy. I have no pity for you or your excuses.
...

you may make of my typos all you like it hardly bothers me (msotly it bothers me when the mispeeling at point near the heart of the peice of writing is seized upon to avoid the point itself but even that makes my oint in many cases
...
If my "corrections" regarding your poor spelling didn't bother you, you would have not made the above comment. If you want to make a point, and make it intelligently, then take the time to do it correctly. Your compositions are akin to those that a second-grader would create. You can hardly expect your "points" to be taken seriously when you cannot present them in a format that the majority of us can understand. You are at fault here, Mark. Not the rest of us who speak English.
...

you are a cowwrd and clearly without honor
...

Was that supposed to cut to the core of my being? Upset me? Send me crying? To the contrary, Mark, your words, misspelled as they are, are meaningless. As I've said in the past, I look at you as a bouncy-ball toy to be slapped around much as a cat would do with a mouse. You are entertainment, Mark. A diversion. A nonentity. I respond to you for two reasons. First, I am bored. Secondly, you are so easy to bounce around that I find you mildly amusing and a soft target to boot.
Now let me see how you will twist this. Did I "libbel" you by referring to you as a soft target? Did I comport myself as being the Antichrist by using "666"? It will be interesting to see how you will surely misinterpret my commentary.
Lecture me not about honor, Mark. You, of all people, know not the meaning of the word.

Sorry about cross-posting my comments to Mark Morgan to this group. I should have checked the Newsgroups option beforehand.
I will, in the future, be sure to check the Newsgroups options and eliminate this group. Mark Morgan is by and large a virtual idiot, but you probably already realize that.

My apologies to the group.

Picked up a Uniden PC 244 (Olddddddddd SSB radio). Flipped on the NB,
can't tell much difference between the engine off or on. It does quiet
the overall voice volume down as well, but the Noise drops to S0-S1 and
the squelch works fine with that.

You don't know the group well, do you?

Audio ICs can get warm, but I assume you have abnormal temperatures. Overheating audio ICs can start to act in strange ways, so it could explain the distortion. It is important that, while you have this problem, you do not run the set for too long. Even if the heat does not instantly pop the IC, high temperatures will shorten it's life or destroy it over time.

First of all, I would check the supply voltage to that IC.
If that is fine, I would consider the possibility of a leaky electrolytic capacitor around the IC, possibly the capacitor blocking DC on the output.
The voltage on the output pin of the typical CB audio IC should be about 1/2 the supply, and there should be no DC across the speaker. You could plug a jack into an external speaker socket and look for a voltage across the pins.

I hope this is a little more helpful.

Regards,

Peter.

He just may be but I'm not sure about that being true as the one call sign that is supposedly his comes up as somebody else's.
Either way he is into CB big time and the two songs he made for CB'ers can be found in the above link.
